

KMS Technologies – KJT Enterprises Inc.

Presentation

Zerilli, A.

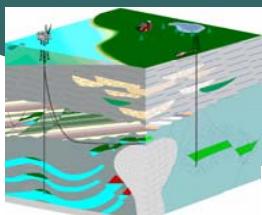

2002

**Integrated imaging adds value to
complex structures exploration**

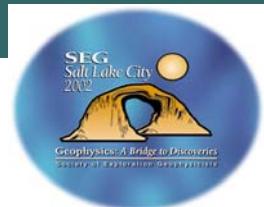

Society of Exploration Geophysicists, Annual
Meeting, Salt Lake City, Invited paper in
workshop "Recent Advances and Road ahead
session"

Integrated imaging adds values to complex structures exploration

**Andrea Zerilli
KMS Technologies
Houston, TX, USA
www.kmstechnologies.com**

SEG/Salt Lake City 2002

Key subjects:

- **Integrated depth imaging**
- **Tackling the near-surface complexity**
- **Enhance seismic imaging in severe topography & complex structures**

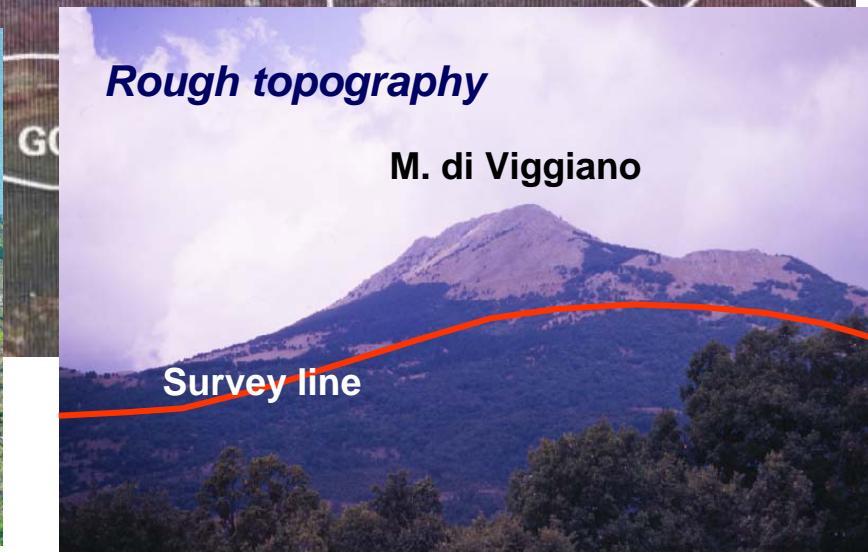

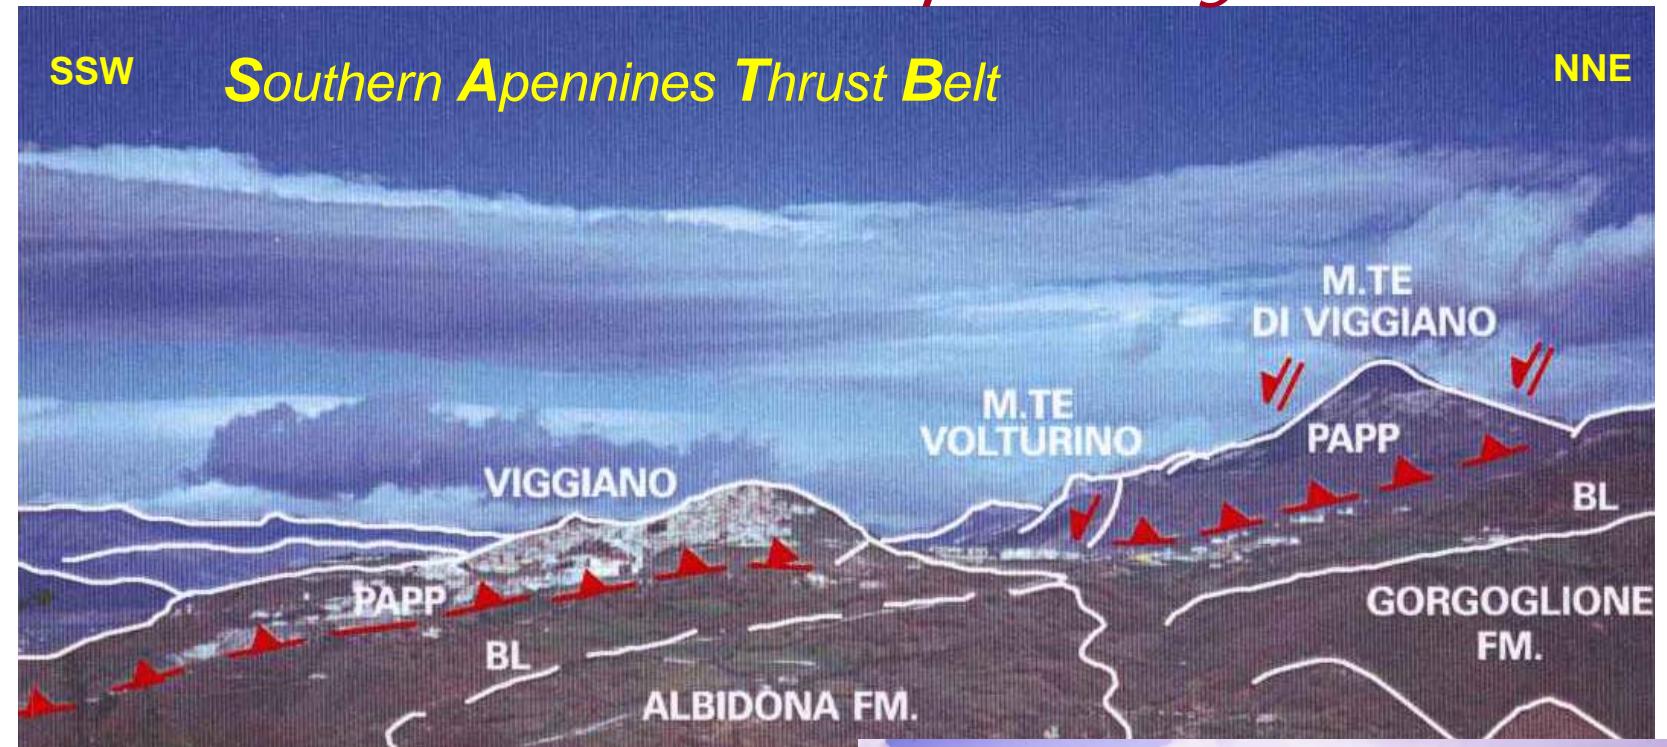

Outline:

- ✓ **Setting the scene**
- ✓ **Integrated imaging – Why ?**
- ✓ **Non-seismic technologies**
- ✓ **Seismic imaging improved**
- ✓ **What's next ?**

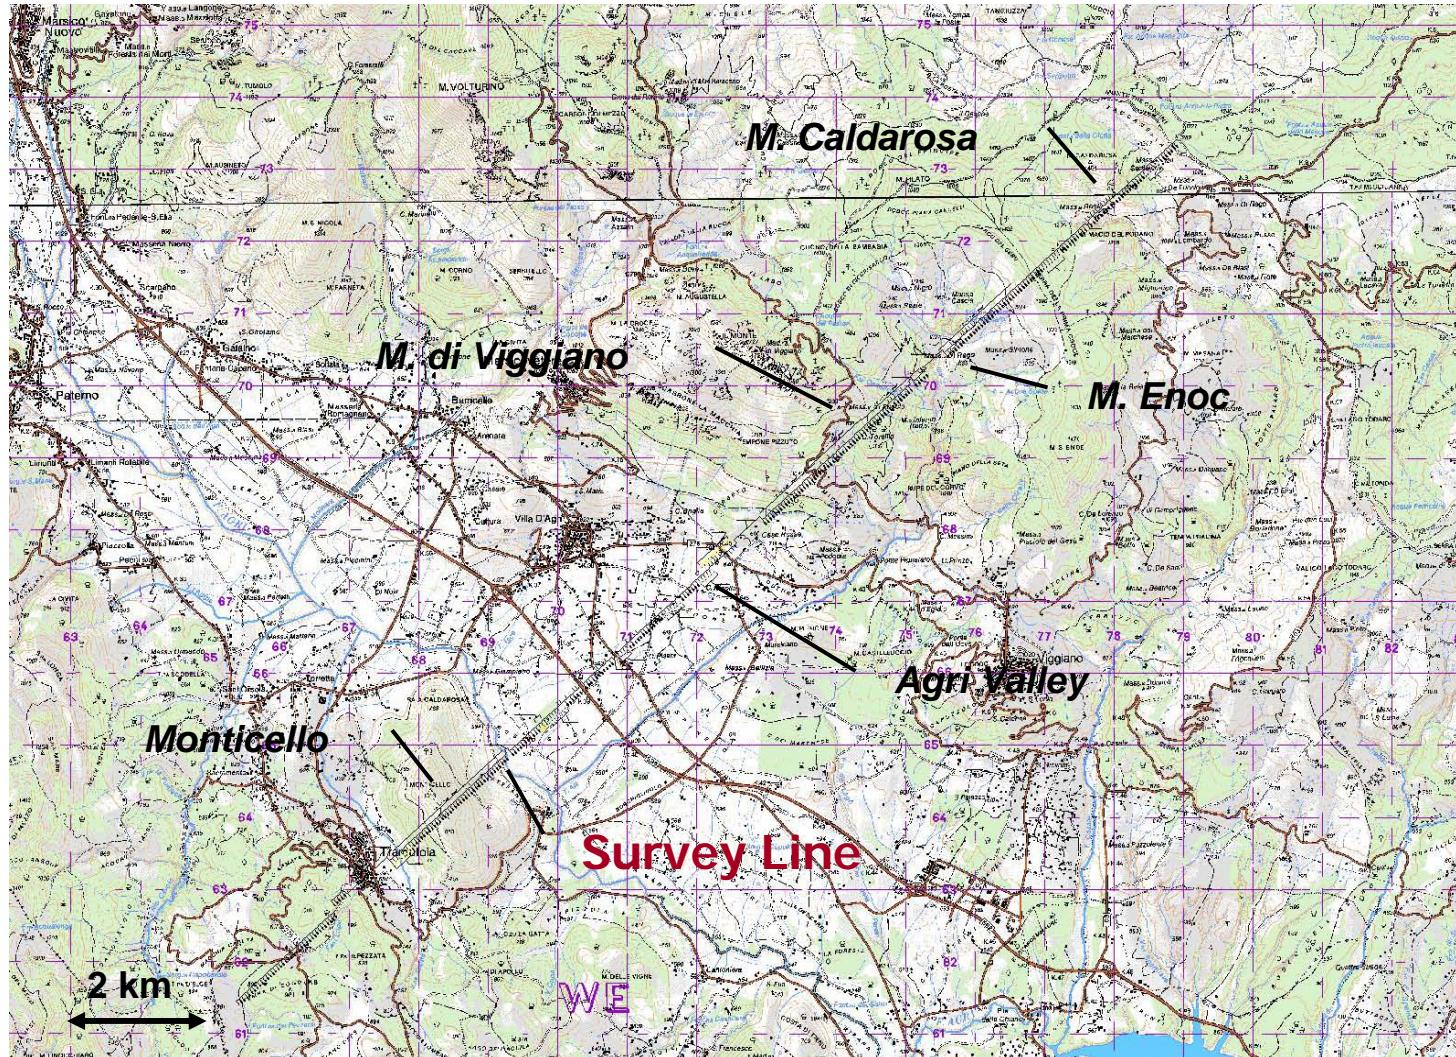

SATB petroleum province

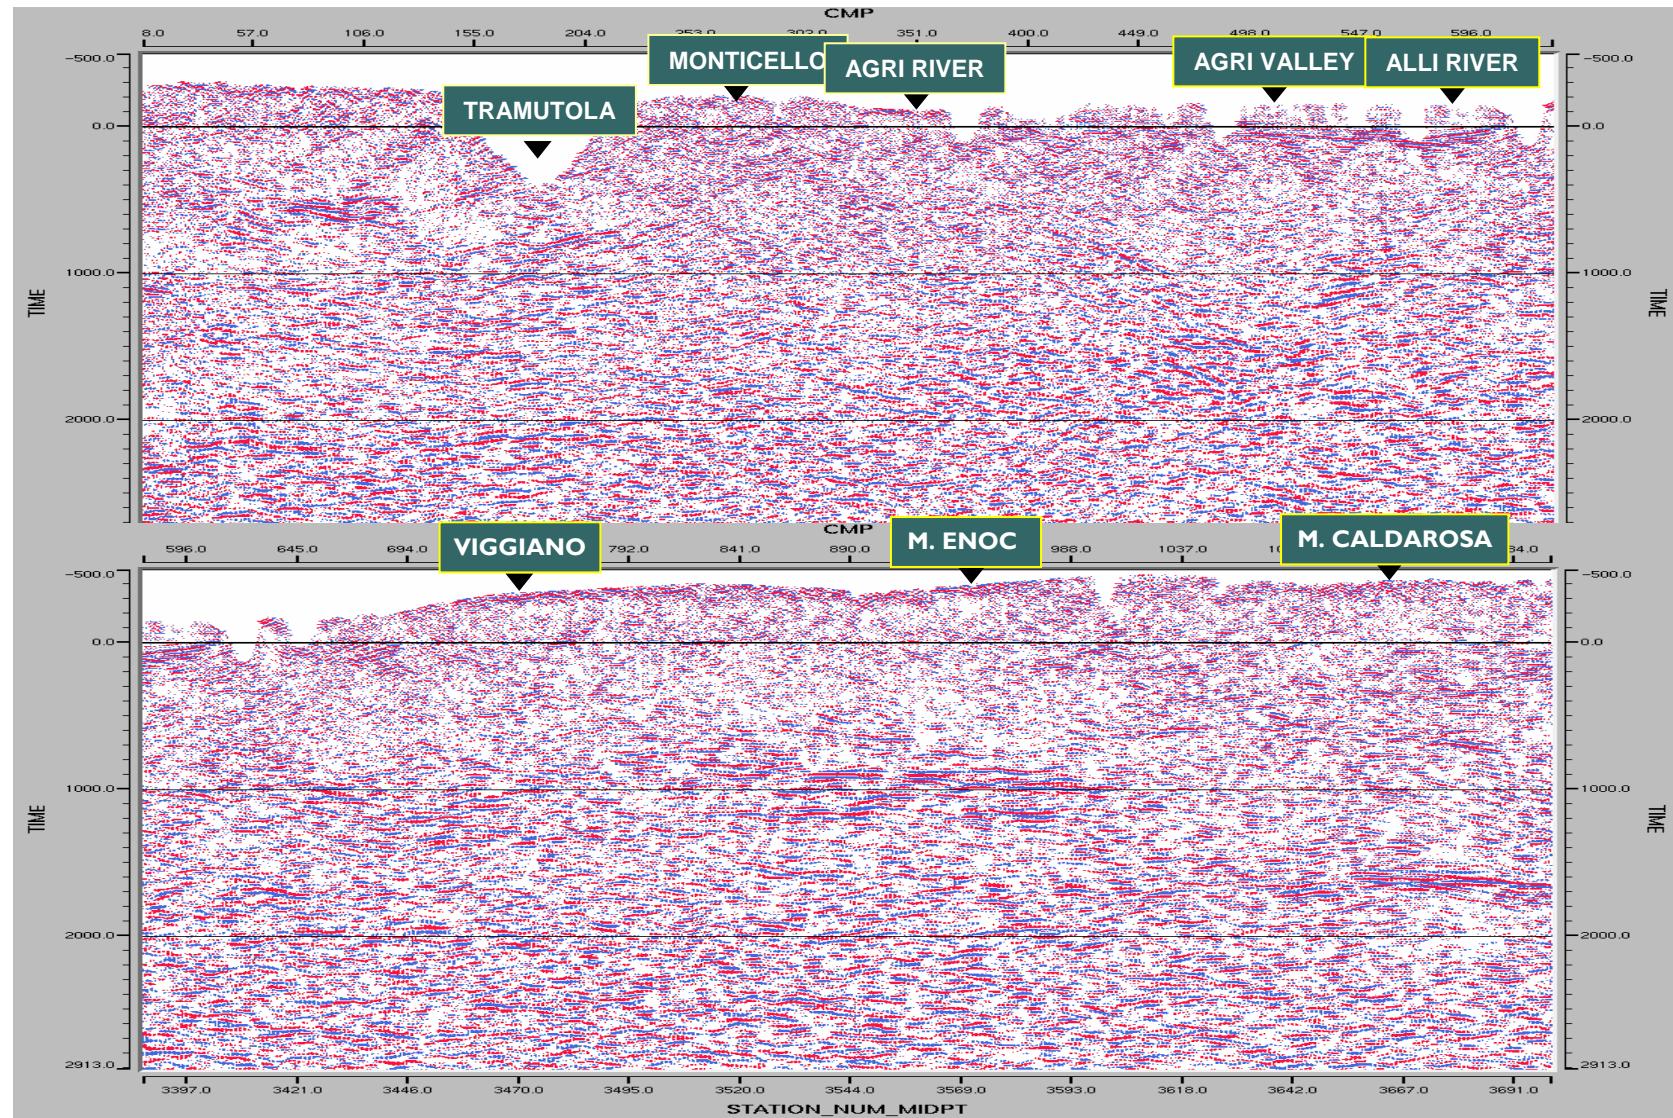

SATB complexity

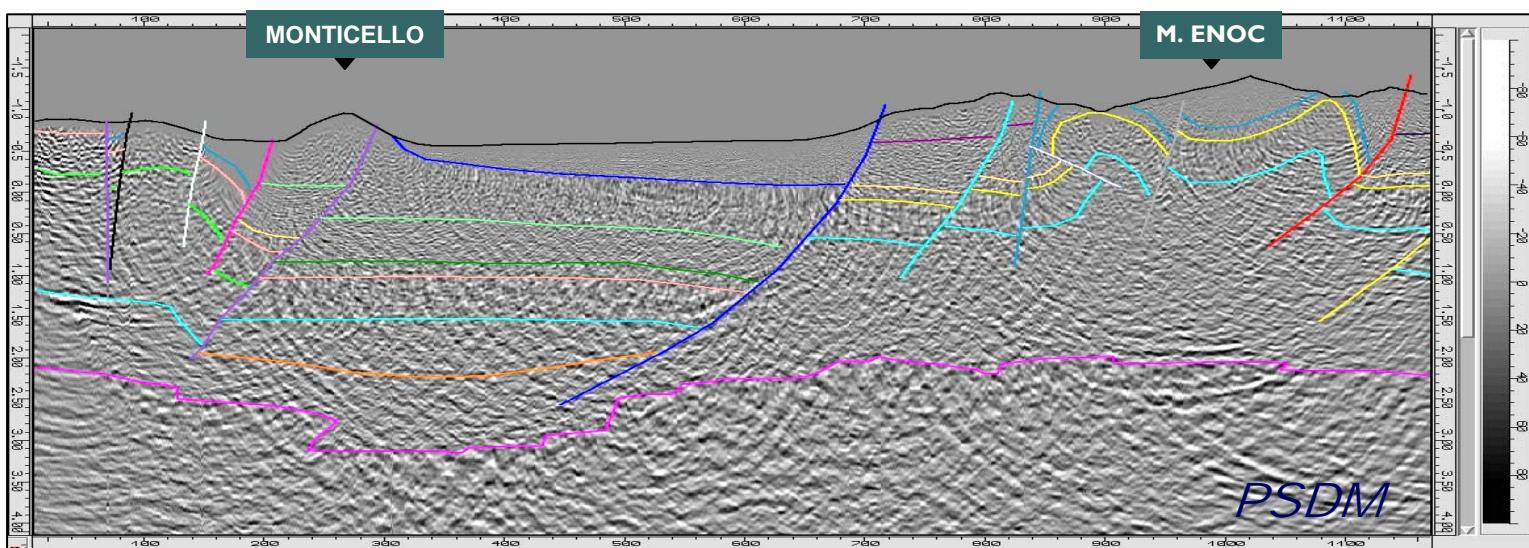

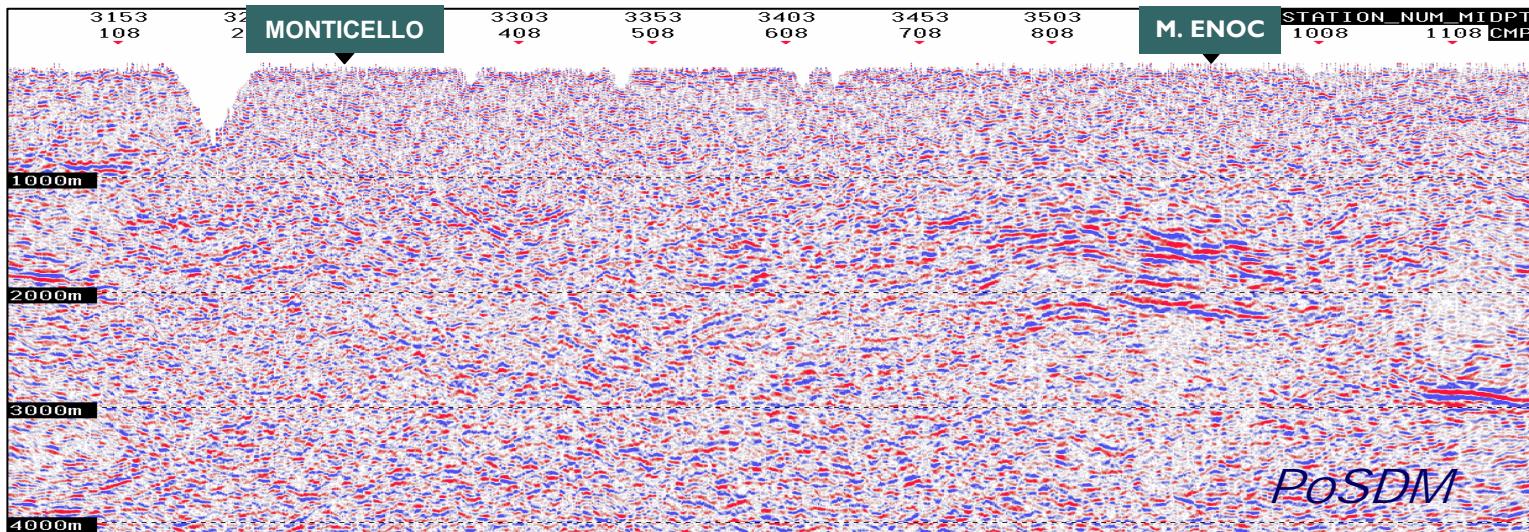

Location map

Noisy seismic

Seismic depth imaging

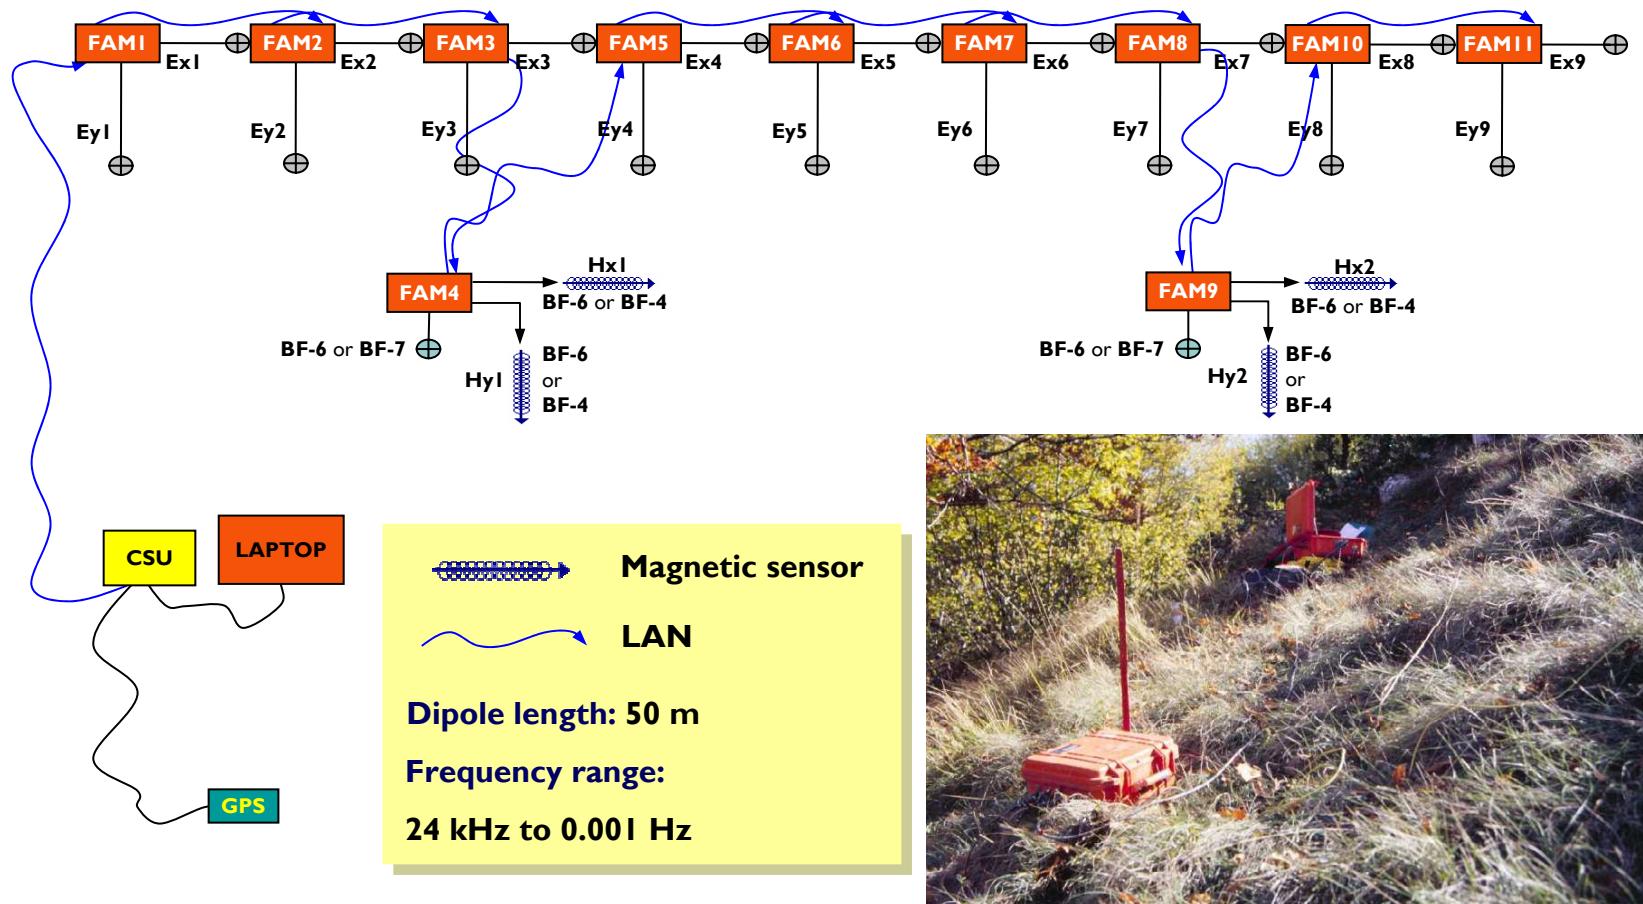

Integrated imaging - Why ?

- **Integrate seismic with alternative geophysical techniques to build the most accurate near sub-surface model characterized by a high level of spatial resolution at low cost**
- **Exploit recent breakthroughs in non-seismic technologies**
- **Enhance depth imaging & reduce risk**

Non-seismic technologies

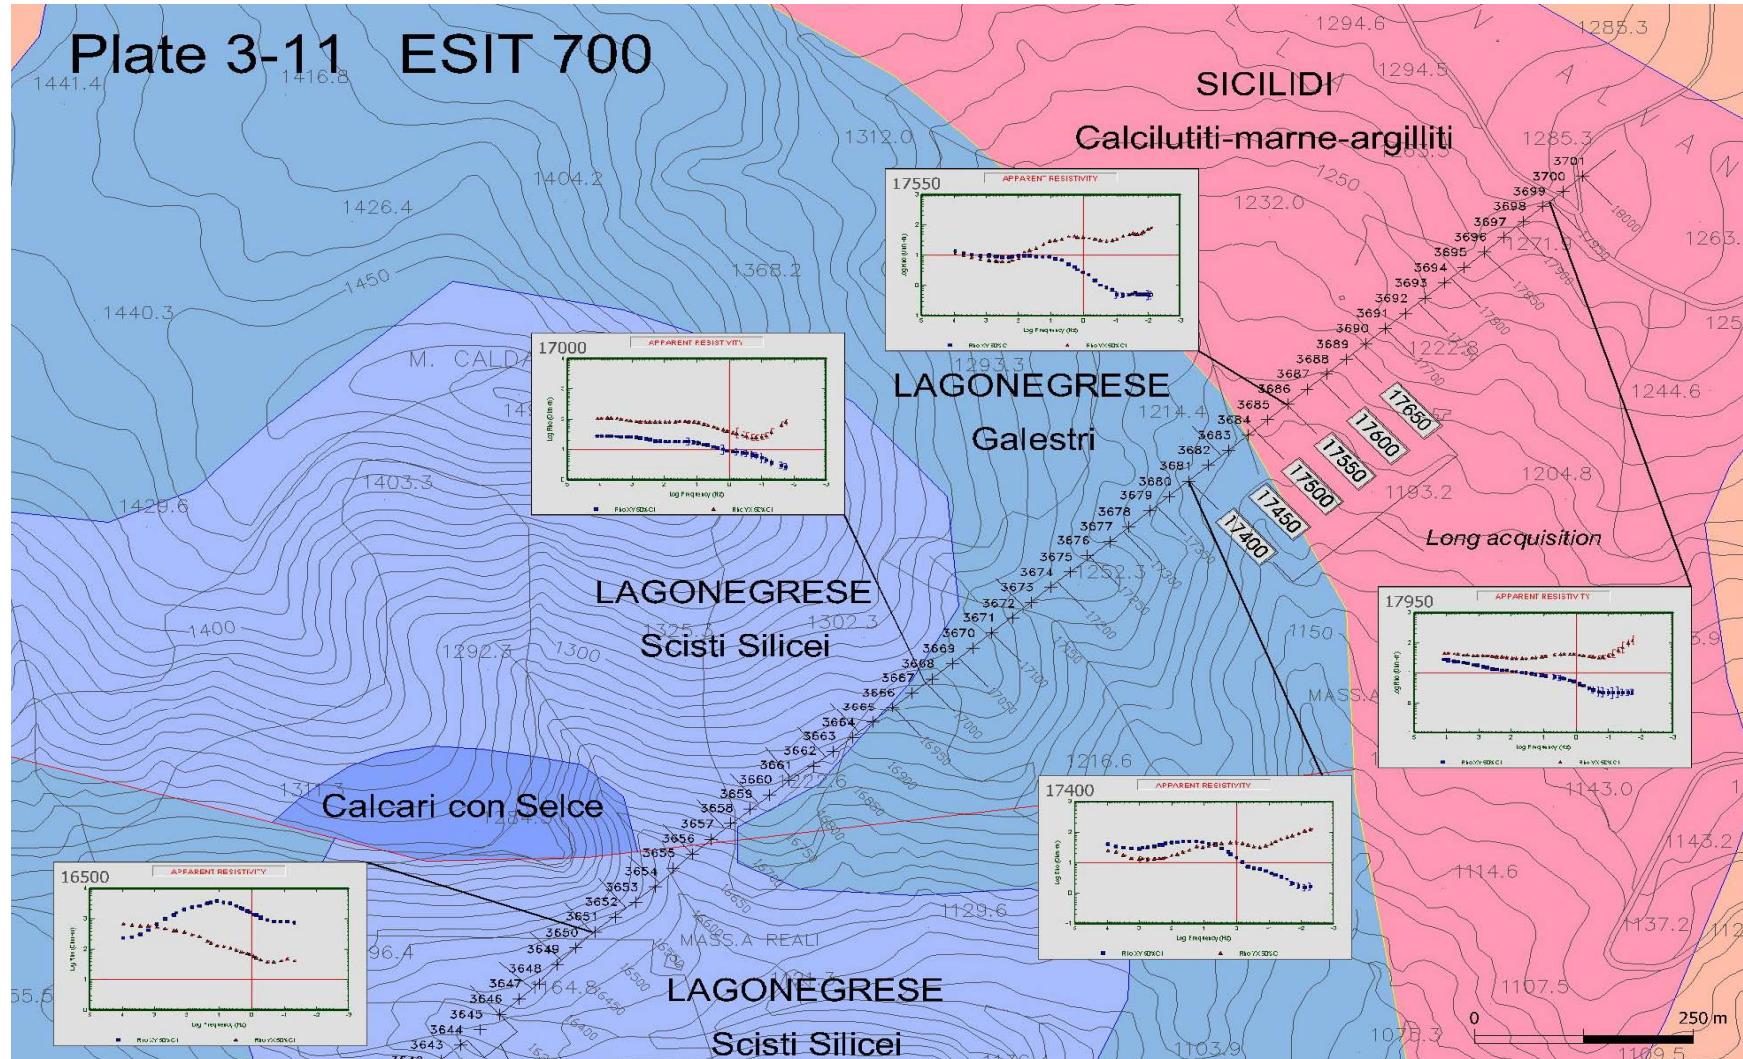

High res MT continuous profiling

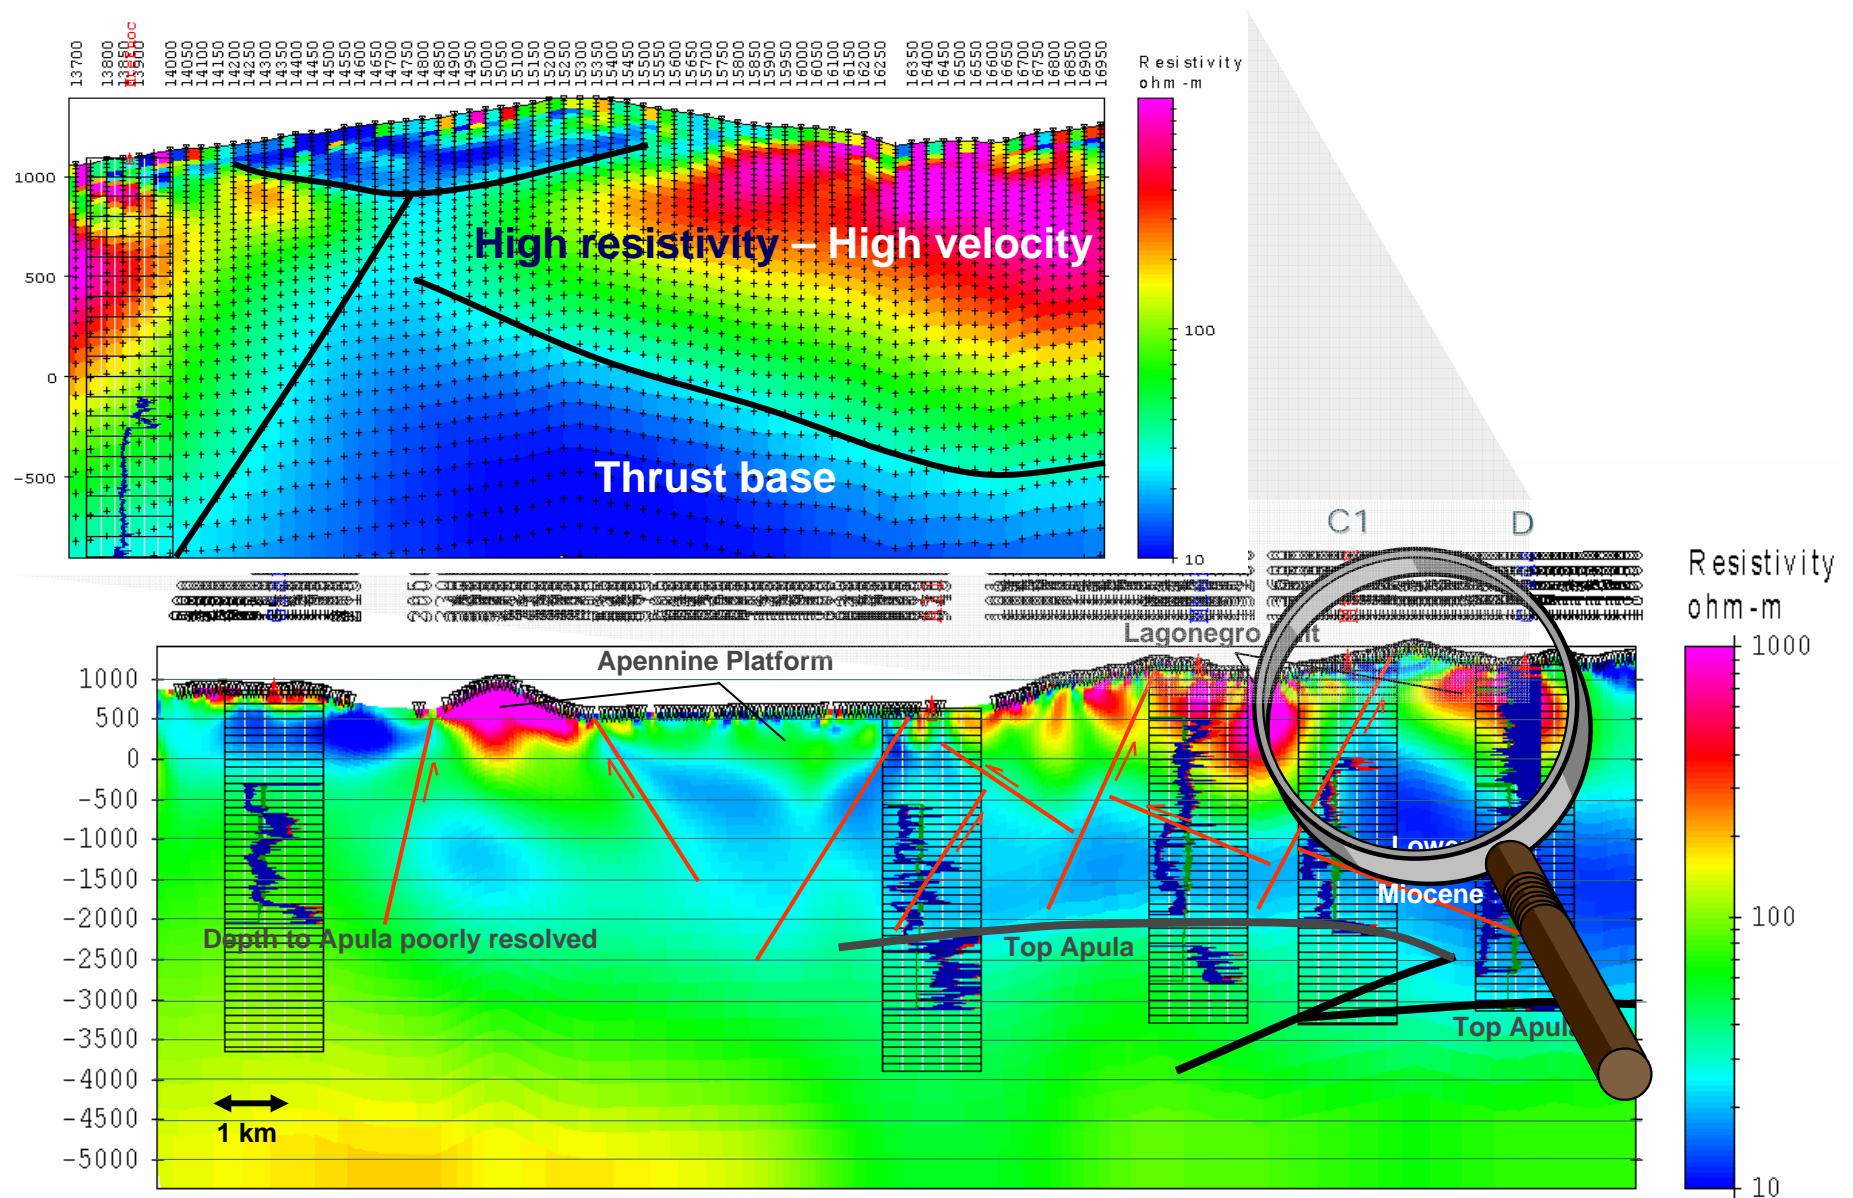

High res MT continuous profiling

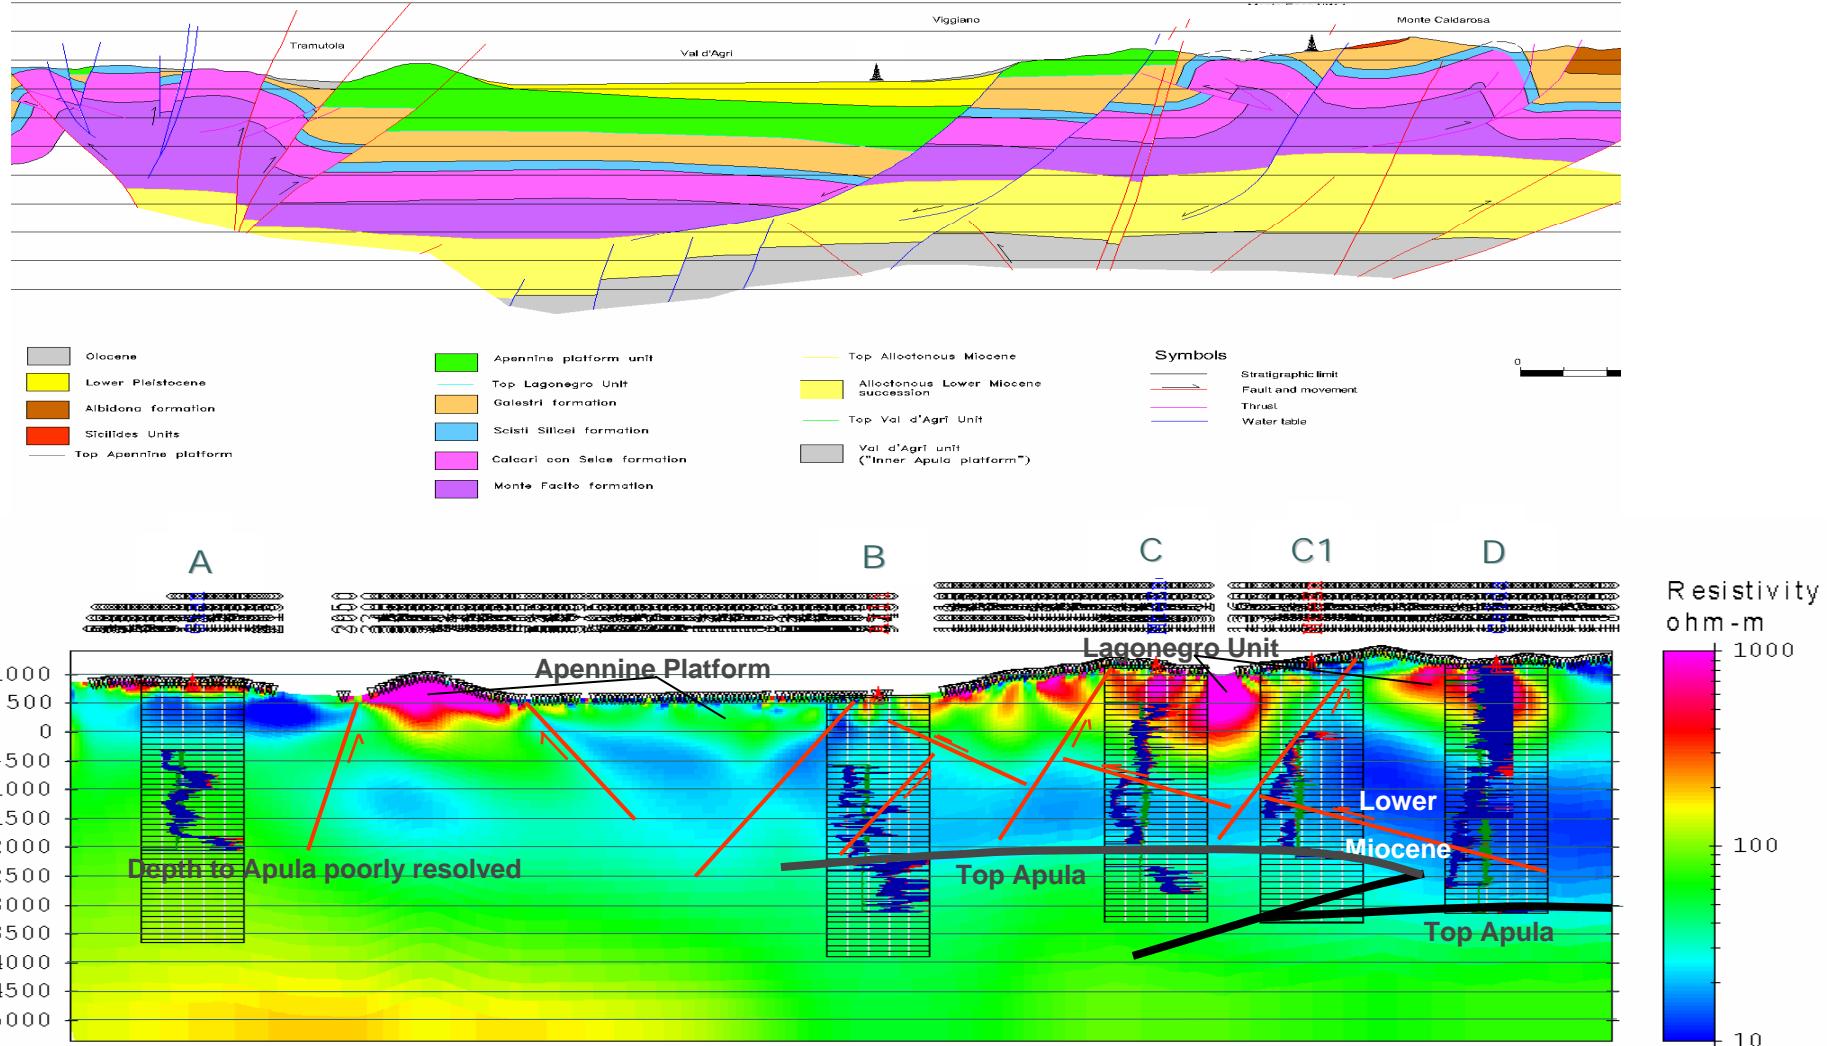

High Res MT data

High Res MT depth imaging

High Res MT imaging vs geology

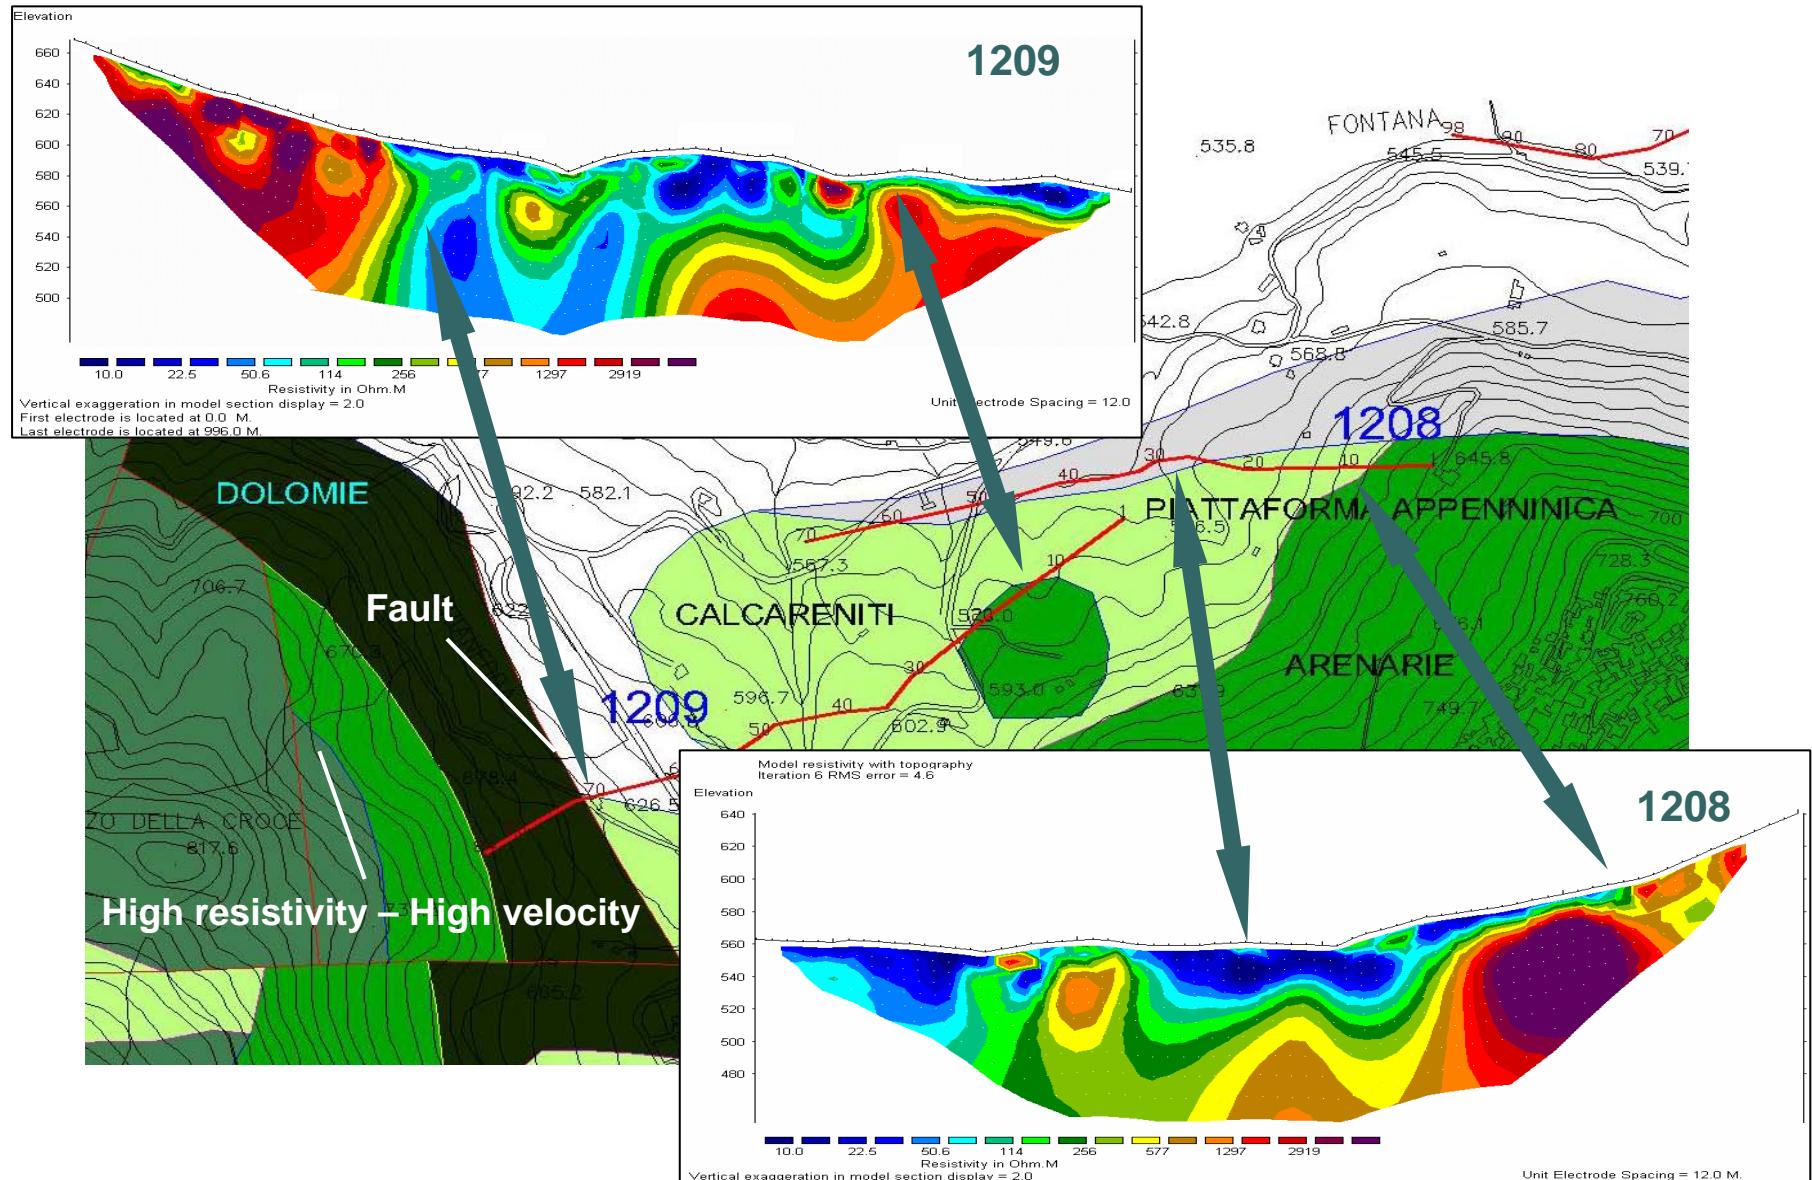

Non-seismic technologies

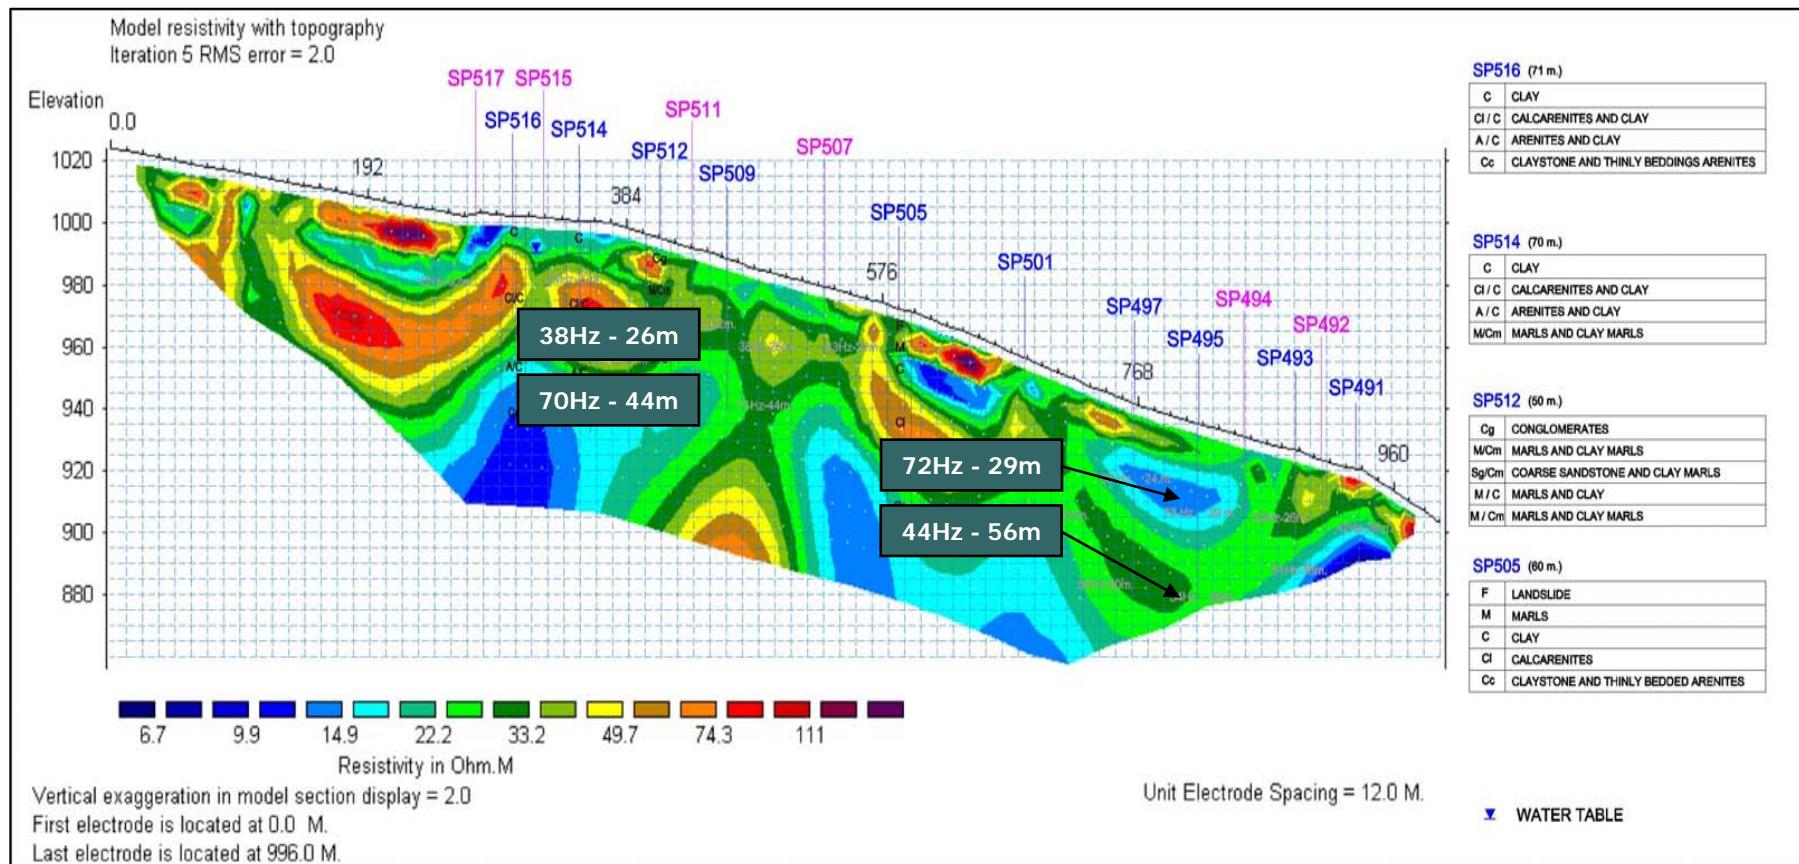

DC resistivity imaging

- **Distributed electrode system**
- **Schlumberger & Wenner arrays**
- **Unit electrode spacing = 6-12 m**
- **Section length = 1.2-2.4 km**
- **Interpreted depth down to 100 m**

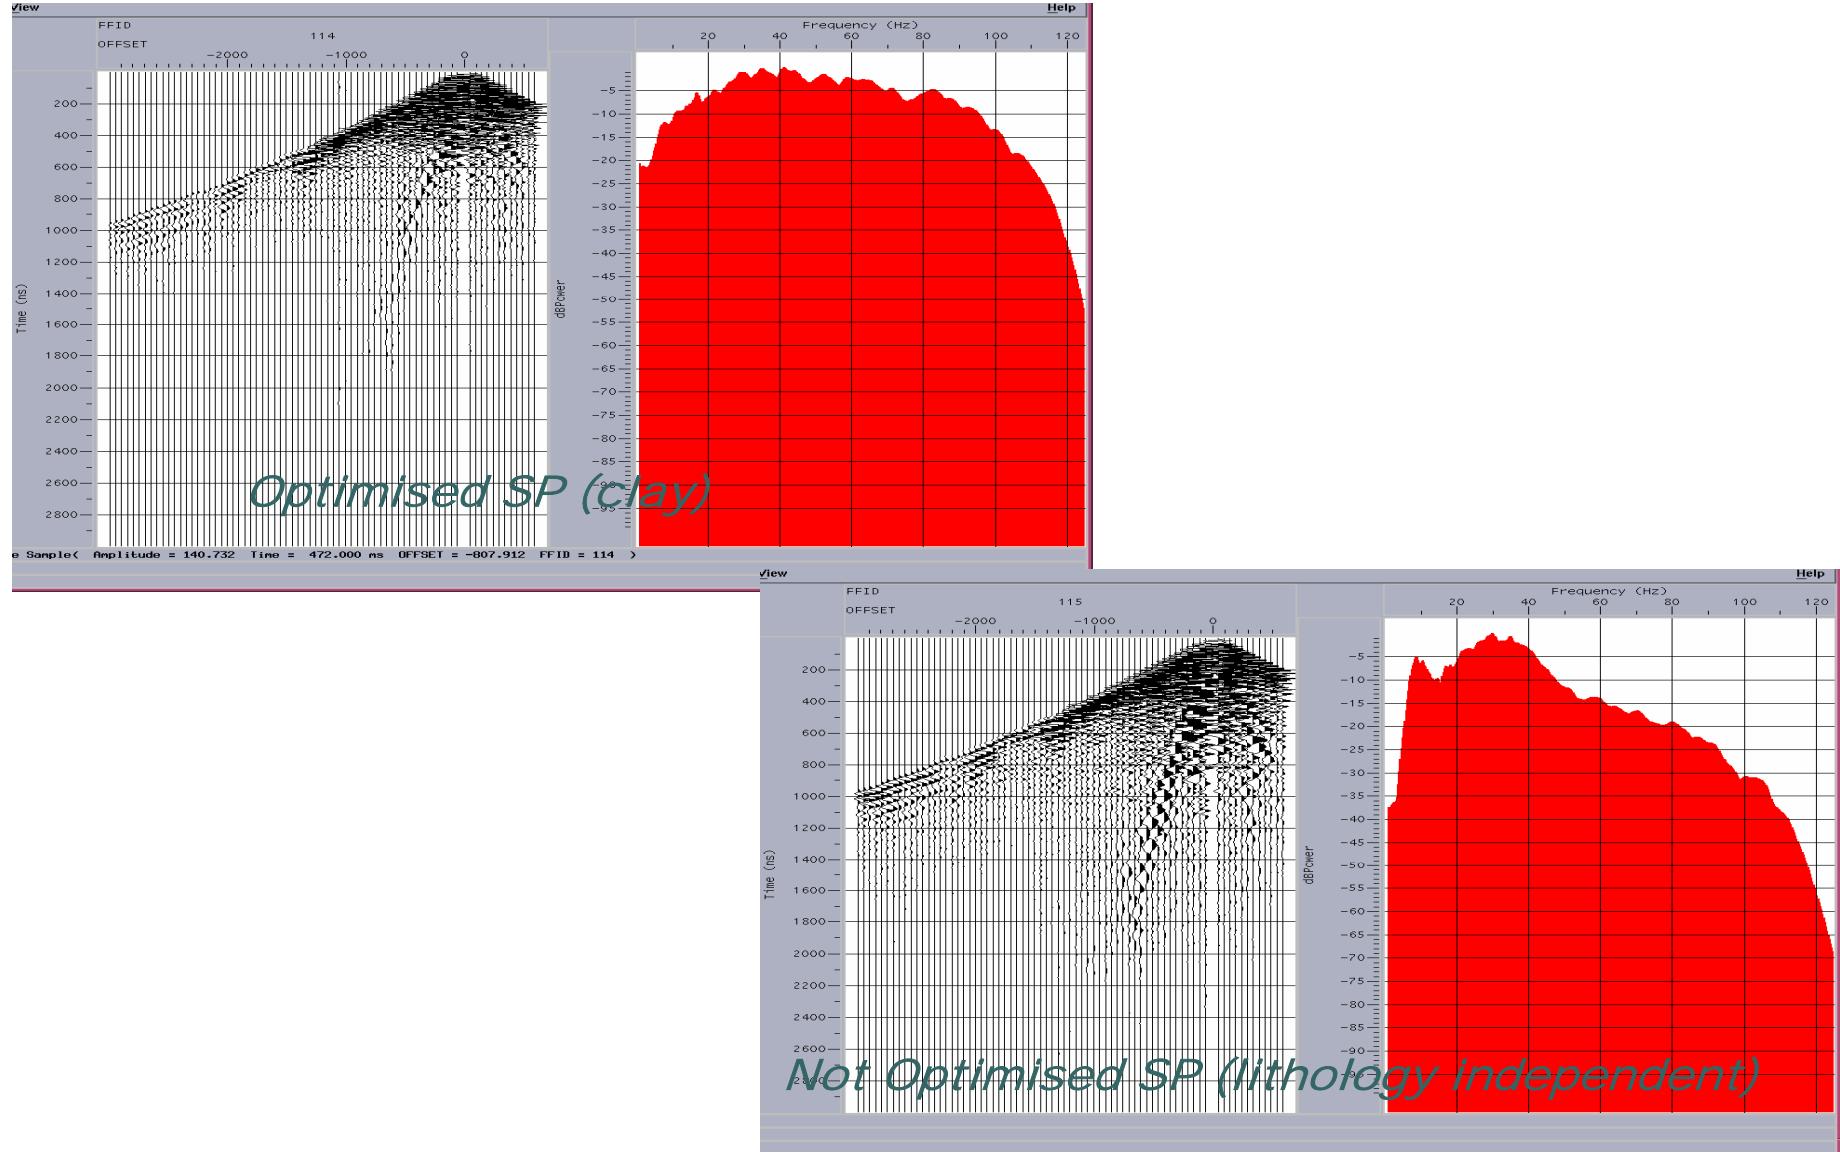

DC resistivity imaging

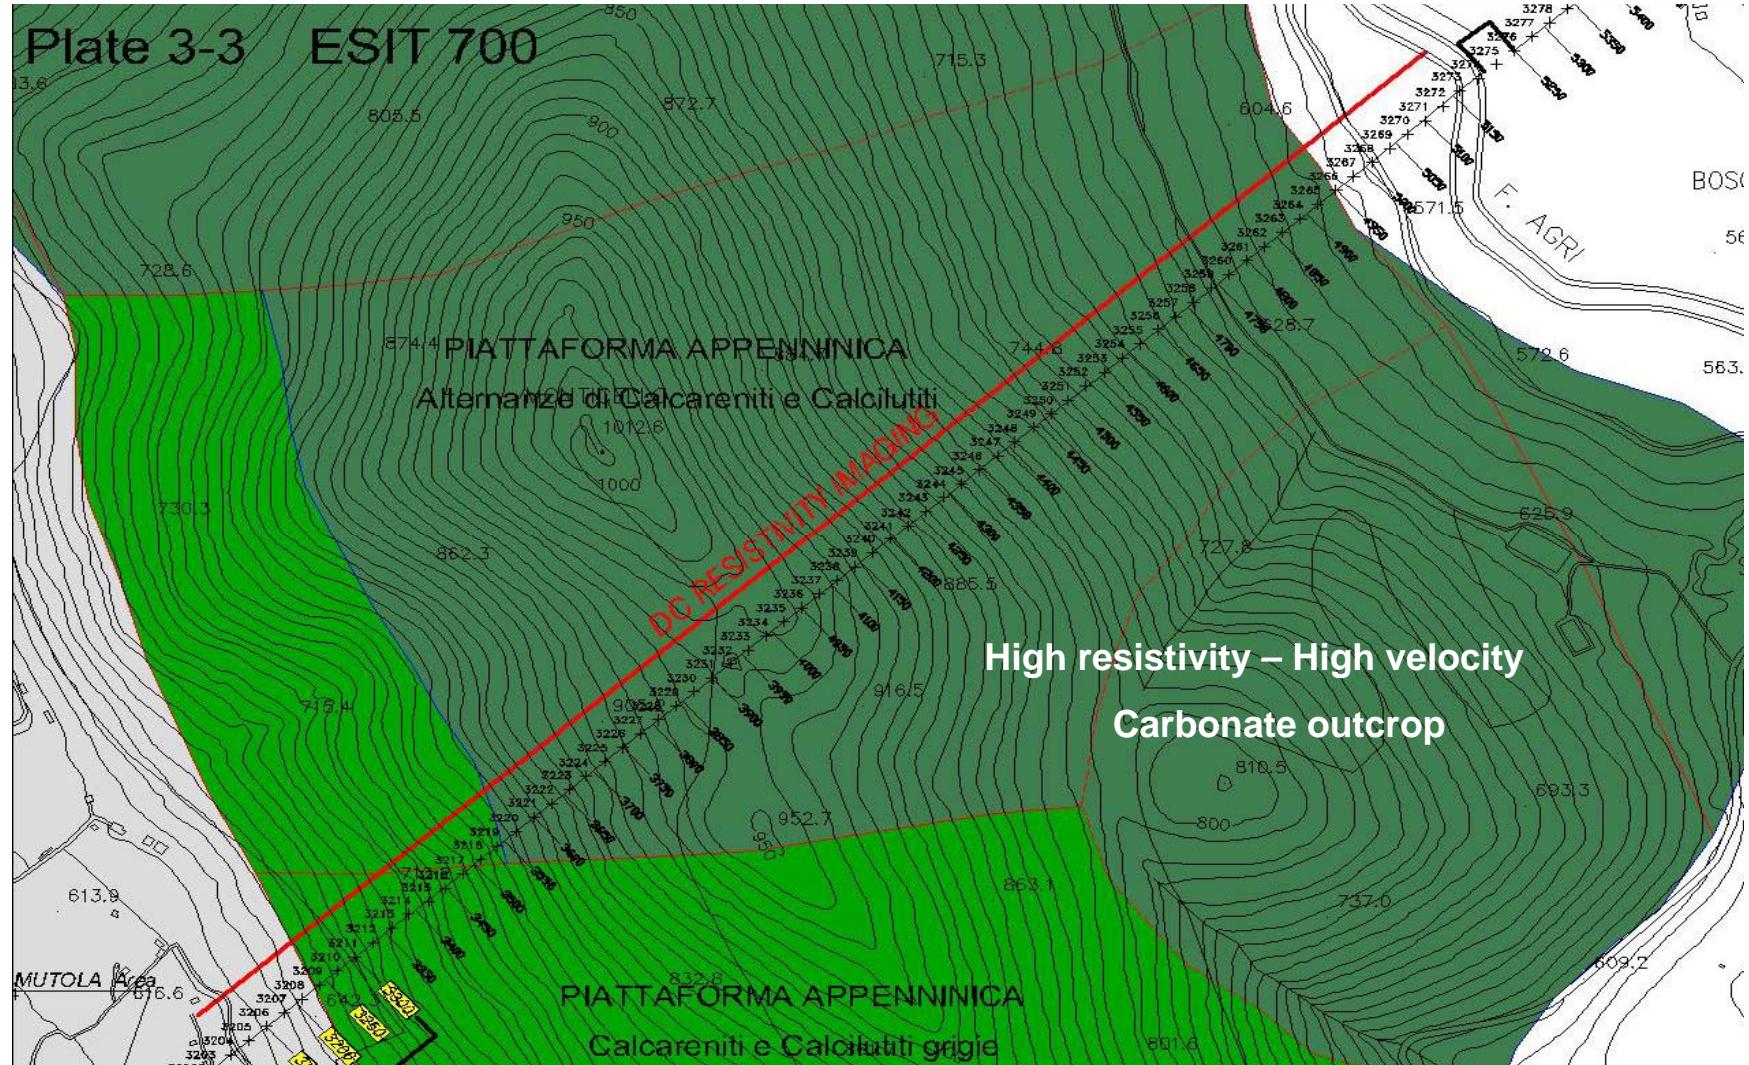

DC resistivity imaging & SP response

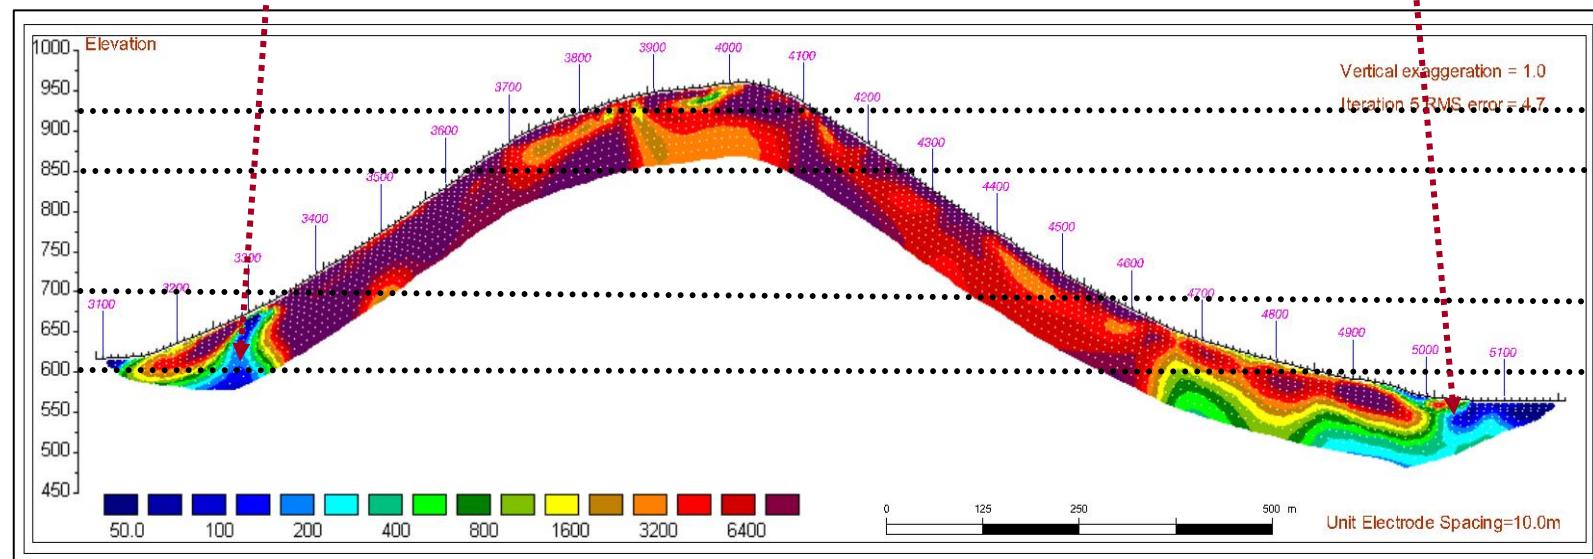

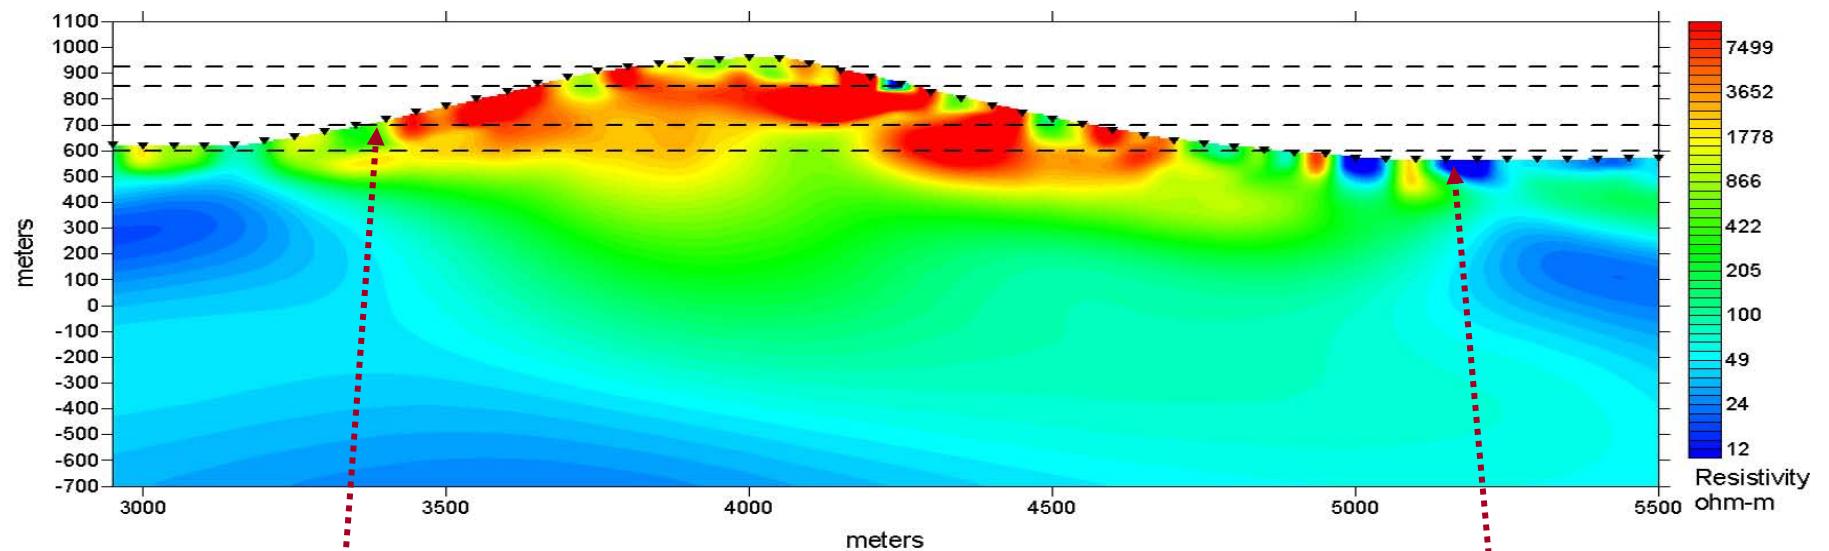

Optimized source placement

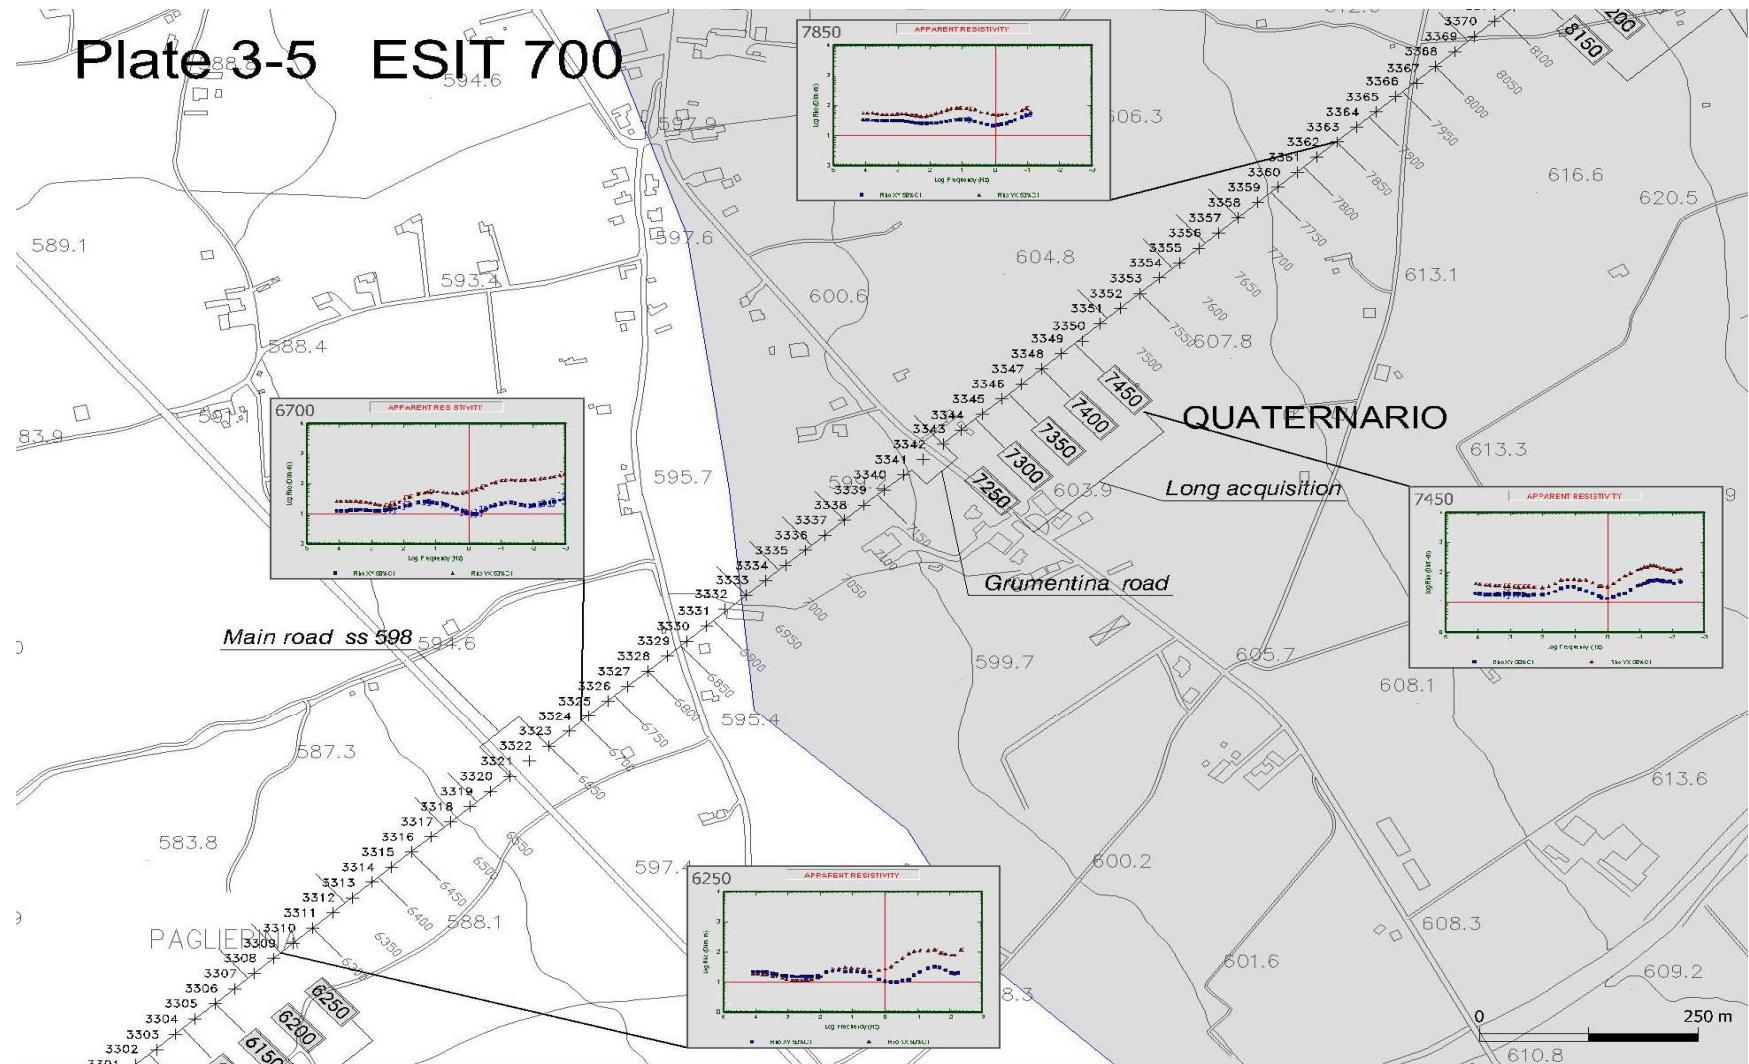

DC resistivity & HRMT imaging

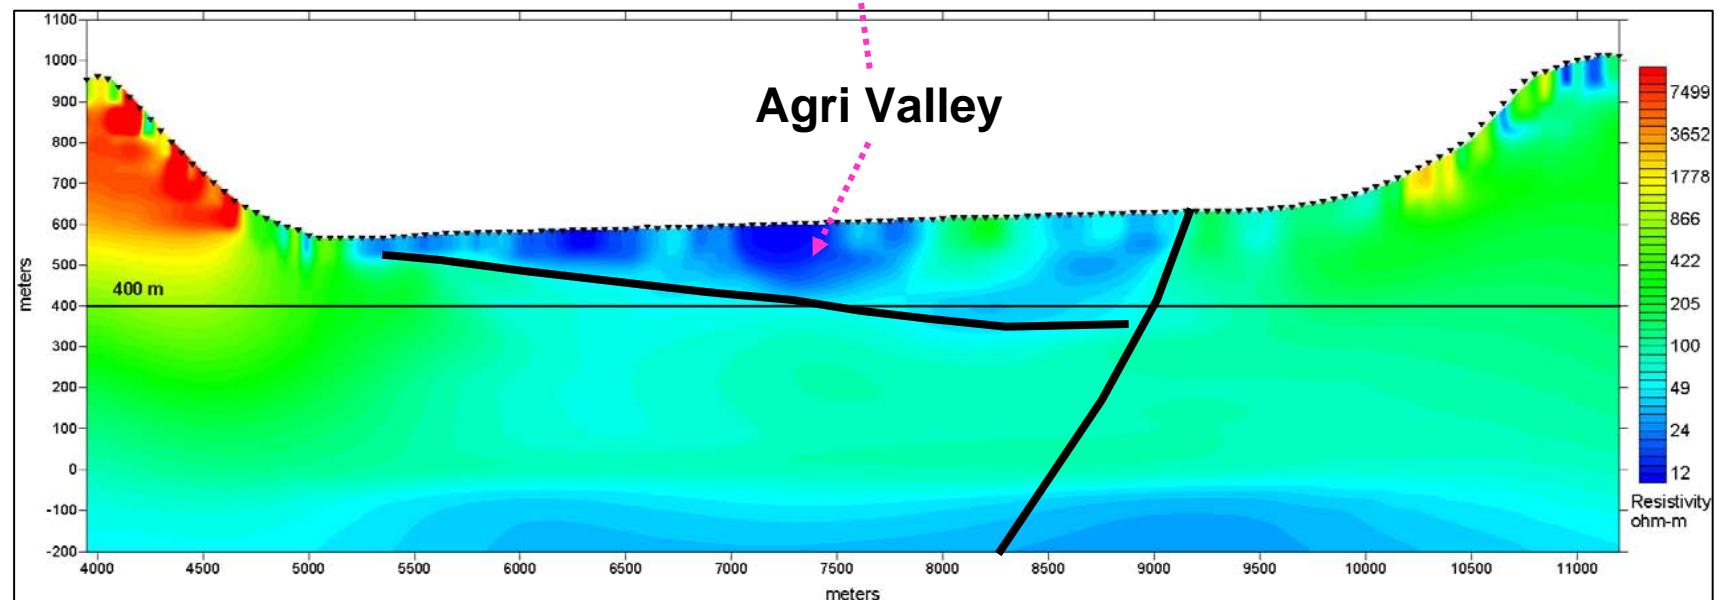

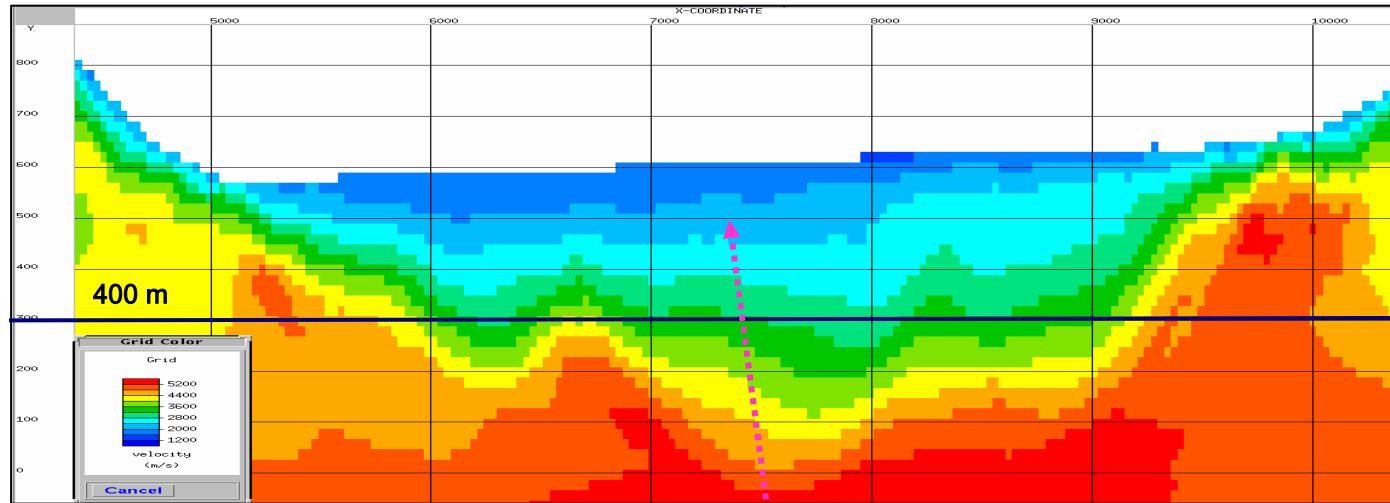

DC resistivity & HRMT imaging

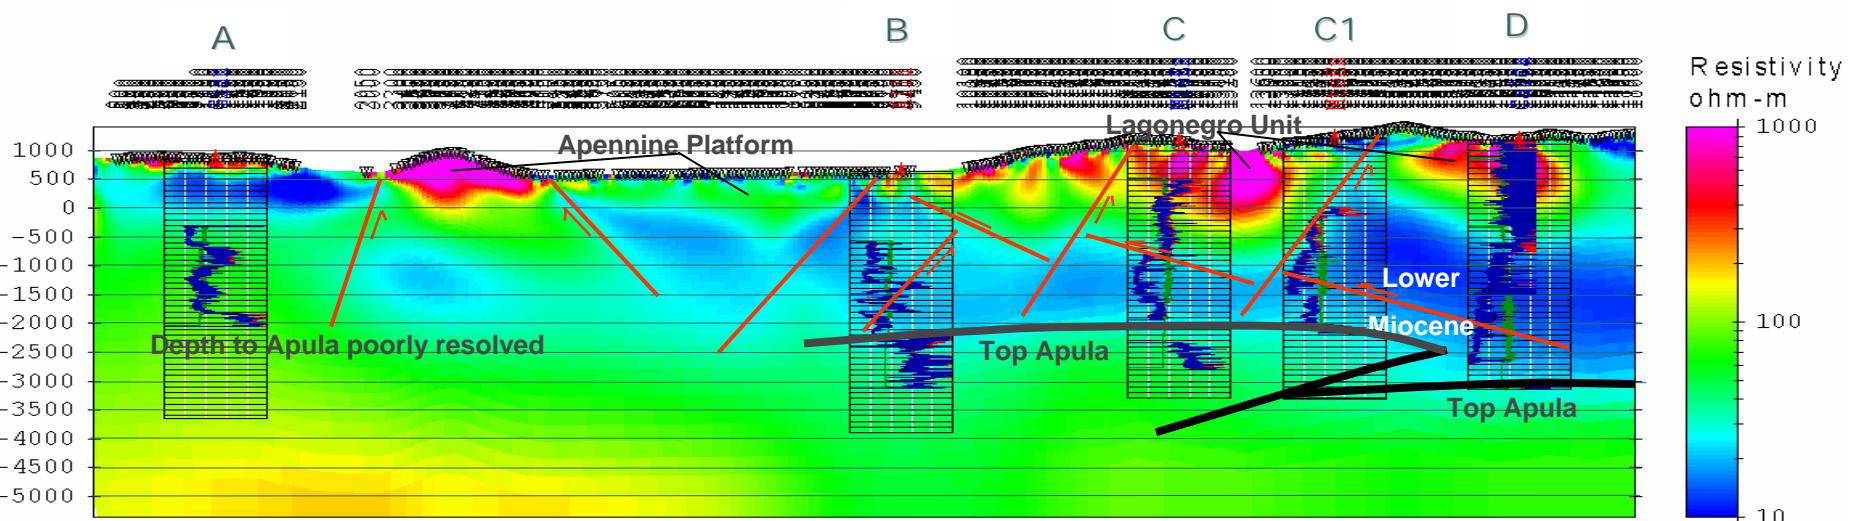

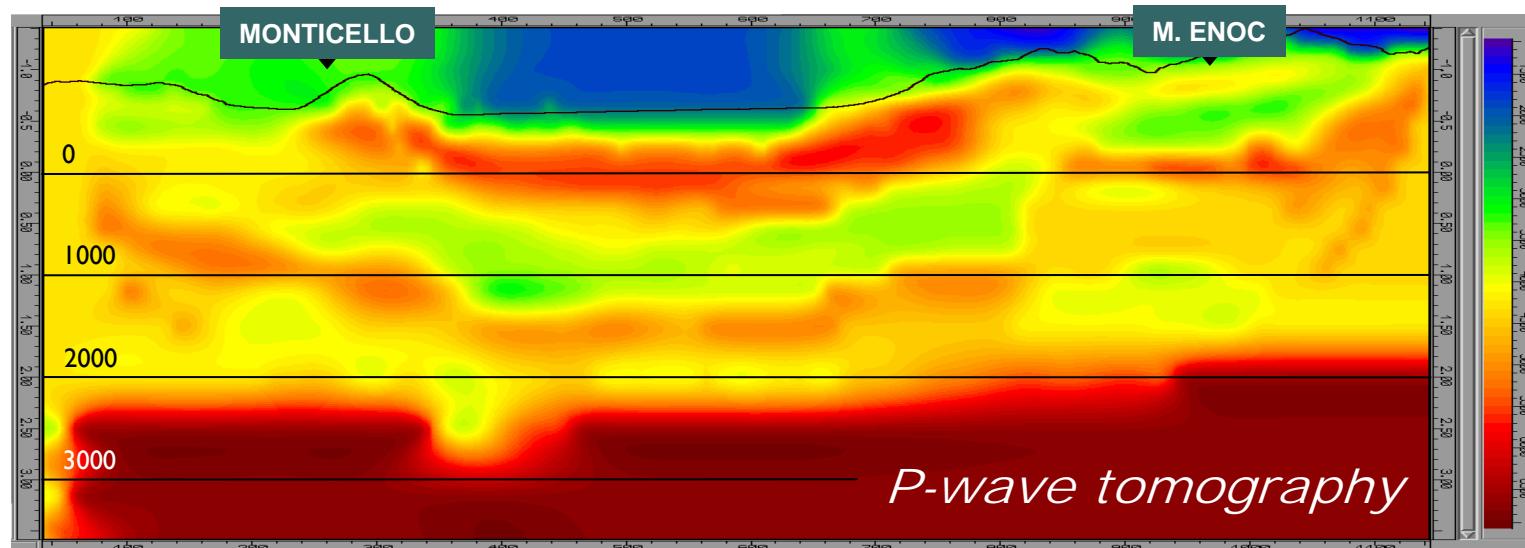

Seismic refraction & HRMT imaging

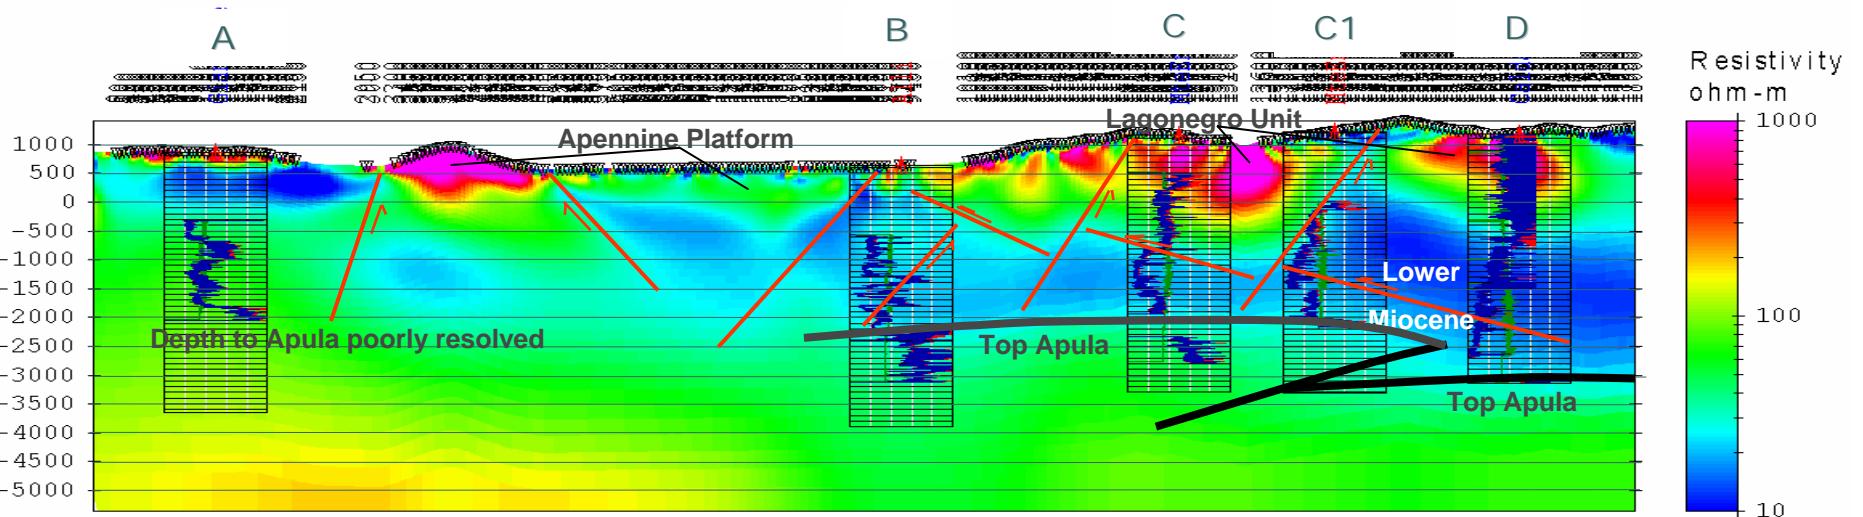

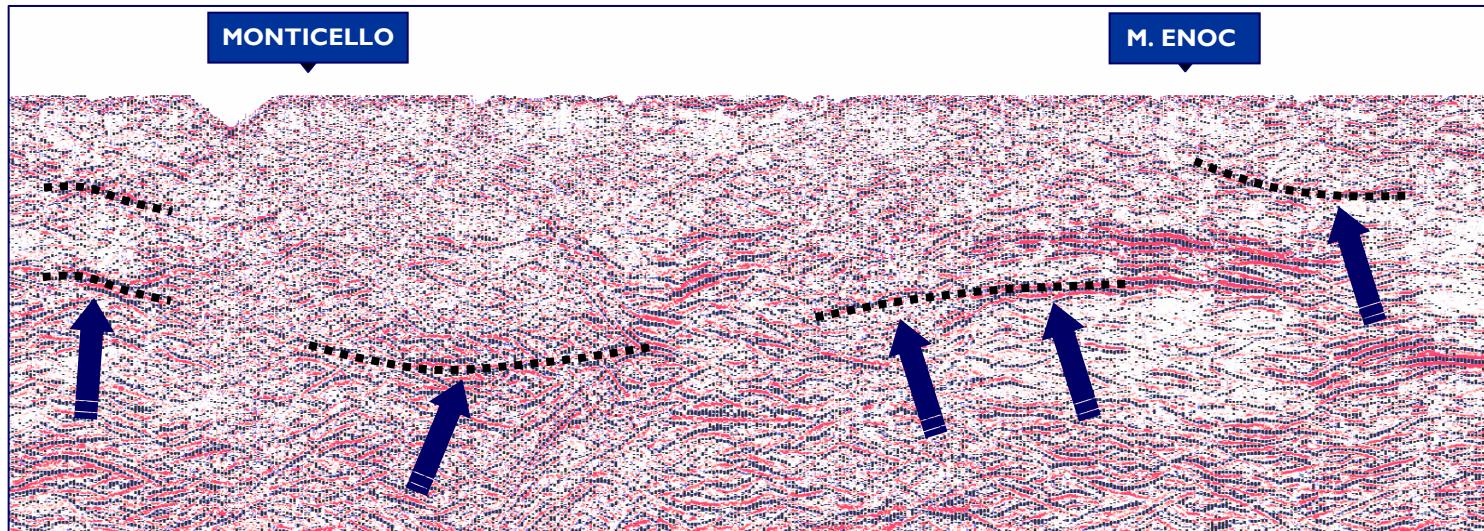

Seismic refraction & HRMT imaging

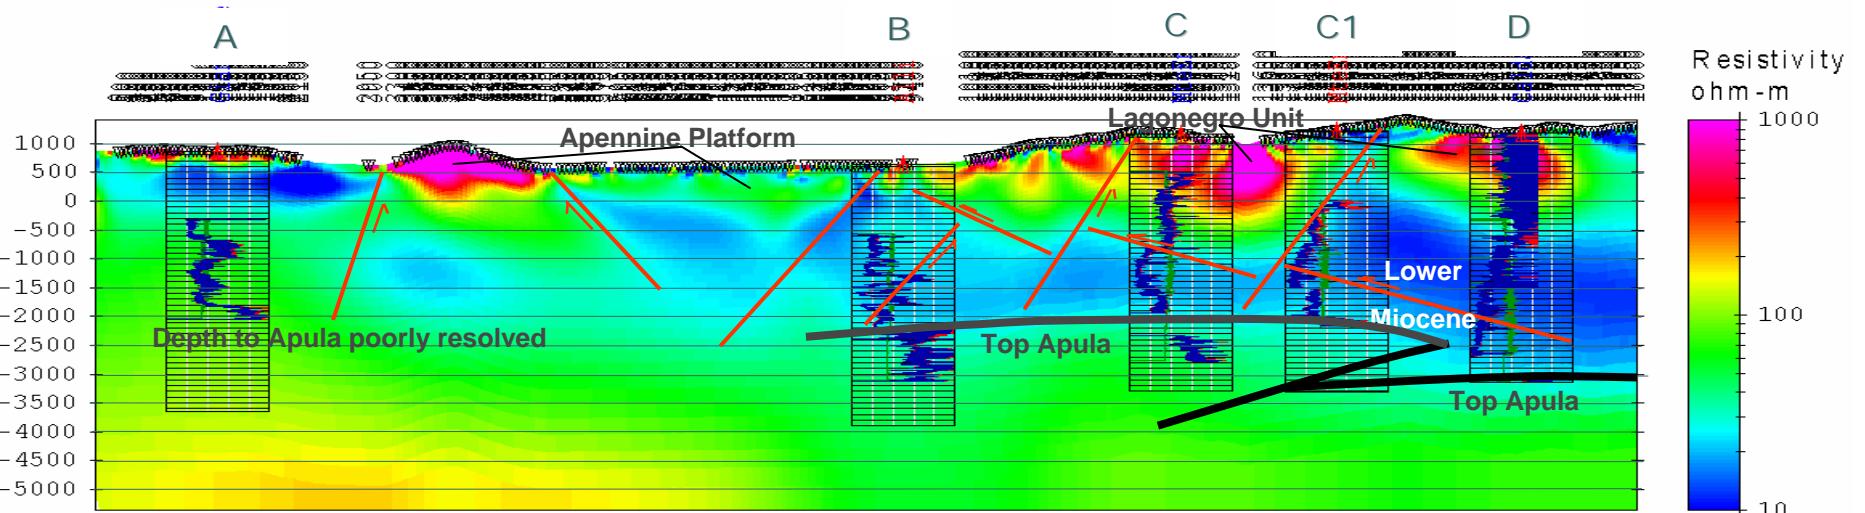

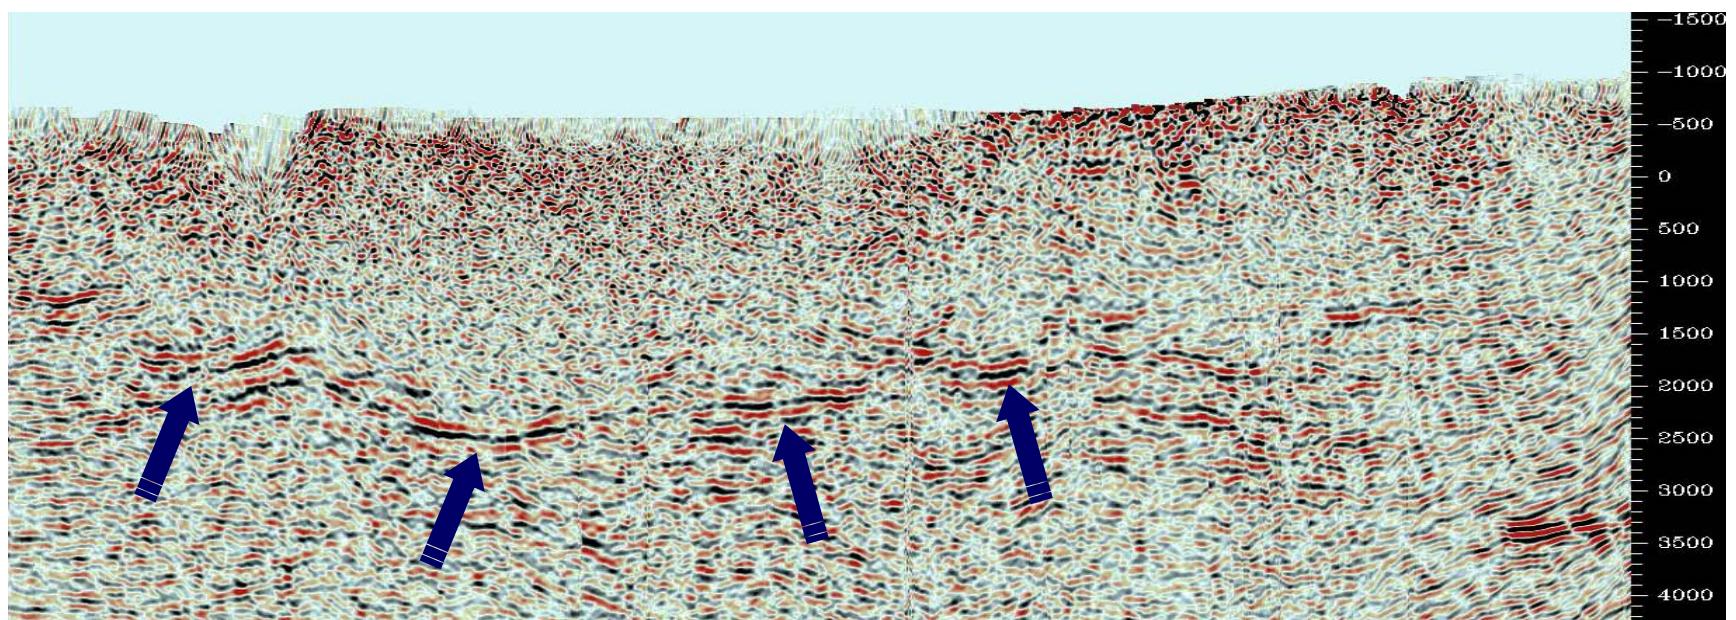

HRMT - seismic refraction synergy

Enhanced seismic depth imaging

Enhanced seismic depth imaging

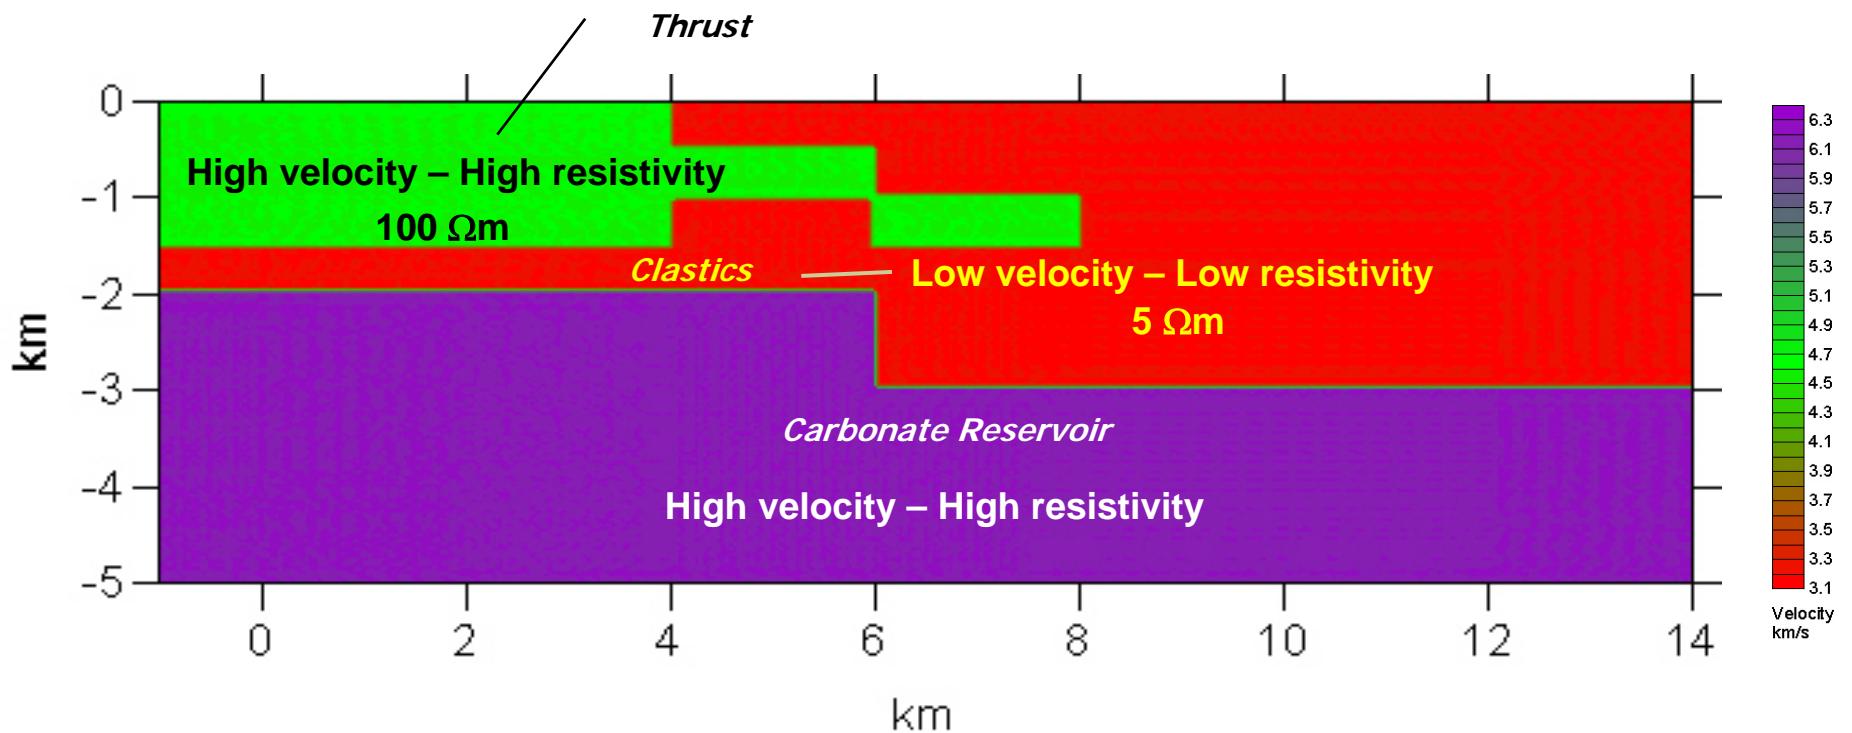

What's next ?

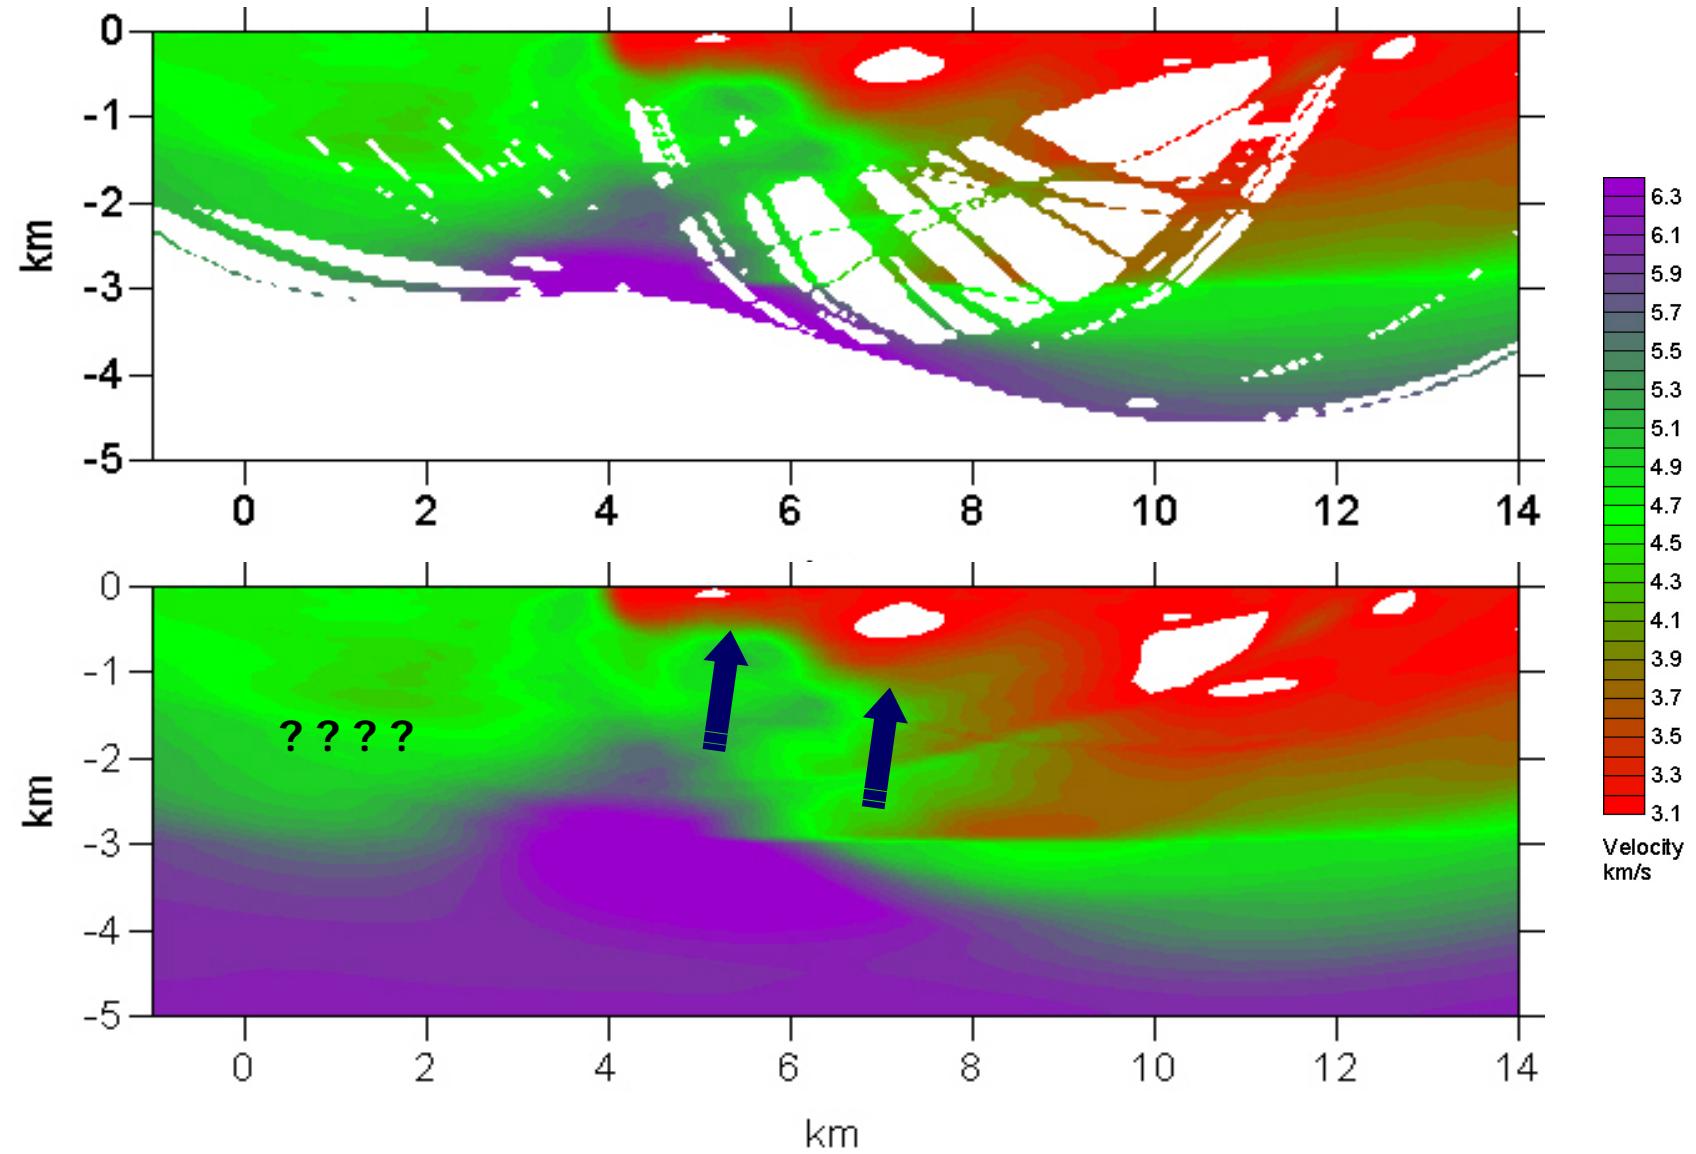

- ✓ Increase data volume & productivity
- ✓ Progress joint imaging technology for PSDM updating
- ✓ Progress mapping from resistivity to seismic
- ✓ Tackle 3D joint imaging on cost effective clusters
- ✓ Deliver commercial solutions

Joint seismic - MT depth imaging

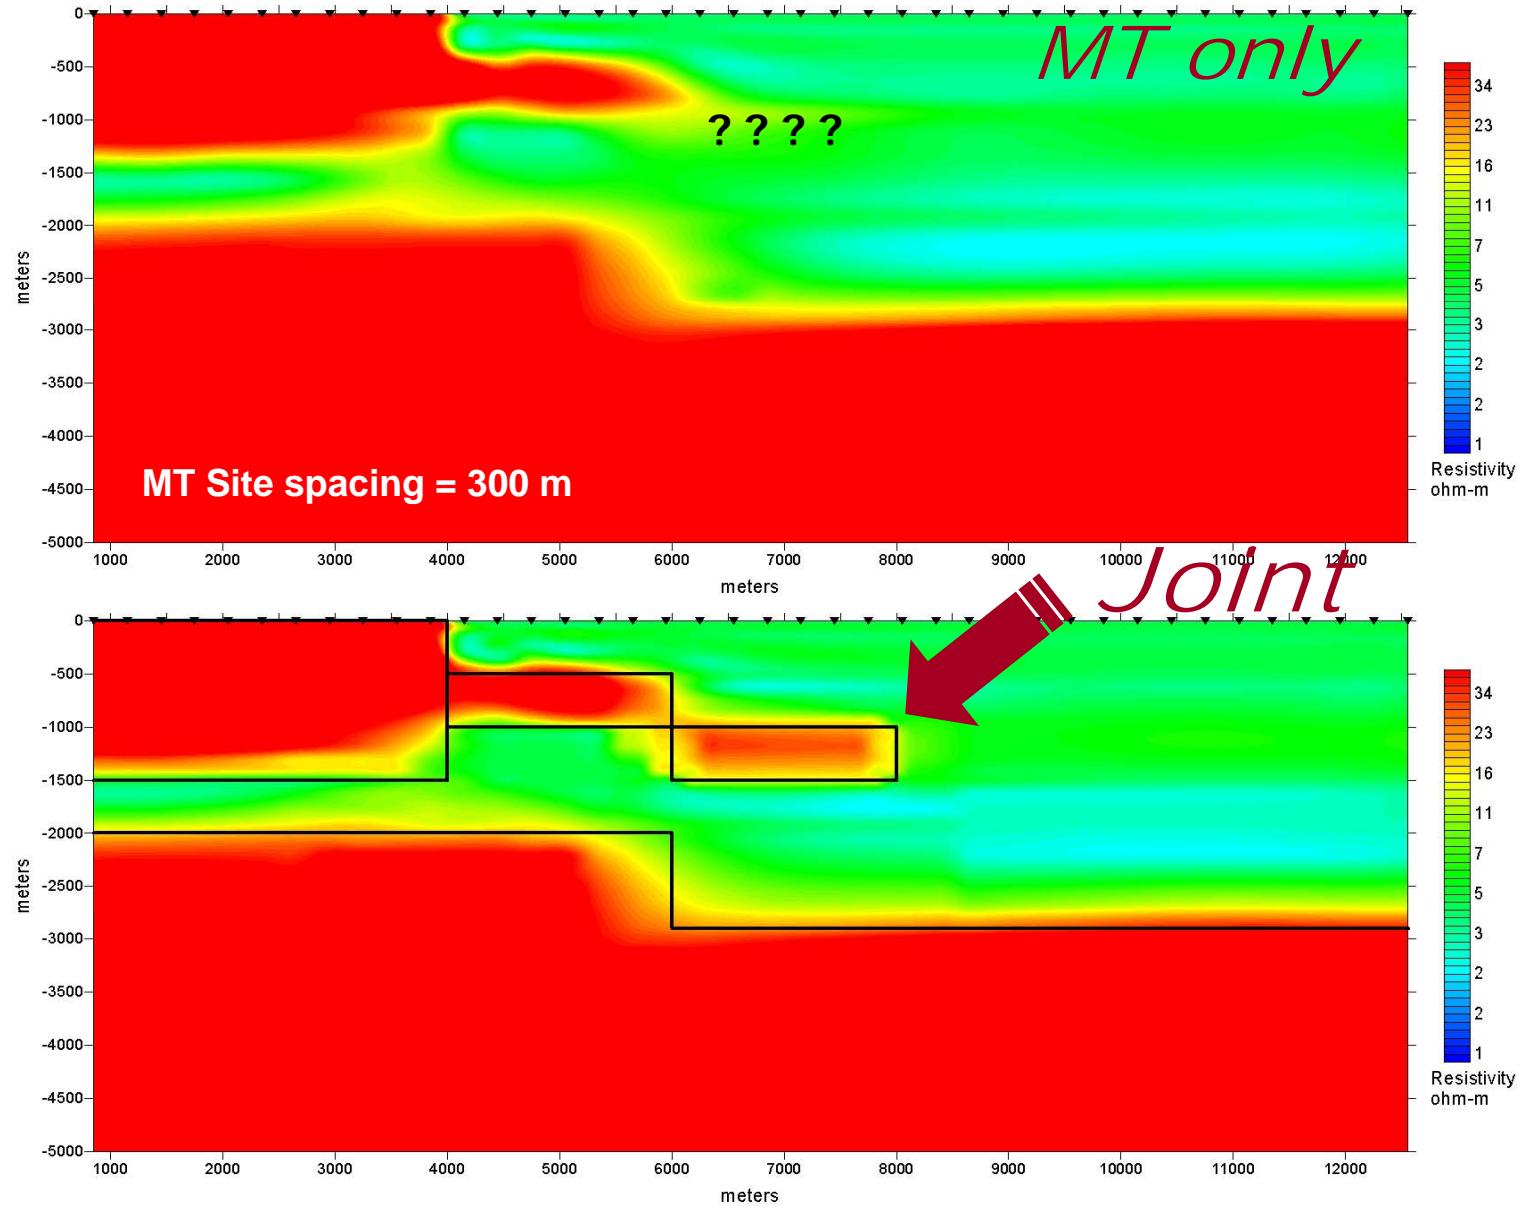

Reference model

Seismic refraction imaging

MT depth imaging

Acknowledgments

- ✓ **ESIT project**
- ✓ **Eni-Agip**
- ✓ **Enterprise Oil Italiana**
- ✓ **Yuri Roslov**
